CRITICISM

(from page one)

You could approve the Edgewood route project in part, with certain reservations. For instance, you might O.K. Highway 29 route north of Third Street (U. S. 87) but make a reservation against No. 29 south of third Street. Then we would be able to proceed with the making of detailed plans—which would be submitted to a later public meeting here.

The meeting adjourned on this note. Mayor Parker said it would be up to the City Planning and Zoning Commission (Member E. P. Young, Jr., attended Tuesday night) to make recommendations to the city board. The commission's next meeting is the first Tuesday in August, August 6, and the next scheduled meeting of the city board would be the second Tuesday, August 13—but that being Election Night the board will meet on Wednesday, August 14.

HOPE, ARKANSAS

Russians on Visit to Czechs

By PETER REHAK
Associated Press Writer
PRAGUE (AP) — Unconfirmed reports today said Leonid I. Brezhnev and the rest of the Soviet Communist party Politburo was on its way to Czechoslovakia for its crucial meeting with Prague's new Communist leaders to discuss the latter's controversial democratic reforms.

Departure of the Soviet delegation for the previously announced meeting was reported by the Yugoslav news agency, Tanjug, from Moscow. There was no official confirmation, but rumors of the departure circulated in Moscow.

The trip to Czechoslovakia is the first by the Politburo—steering committee of the Soviet party—outside Russia as a group. The meeting is expected to be held today or Thursday in Slovakia, adjacent to the Soviet Union, but the time and location have not been announced.

Despite new Soviet army maneuvers along its eastern frontier, Czechoslovak officials expressed confidence the Russians would never resort to armed intervention if the country stands united behind Alexander Dubcek's reformist regime.

"The Soviets would lose more than they would gain by a military intervention," one Communist party official said.

"Moscow will have to get used to what is going on here. There can be no turning back the clock. We are not going to compromise and are determined to continue on the present course."

Party officials said they viewed the Soviet note this week demanding a strengthening of Czechoslovakia's border with West Germany, presumably by Red army troops, as "just another step in the war of nerves."

In apparent rebuttal to the Soviet note, Maj. Gen. Jan Peprny, commander of the frontier guard forces, said in a statement to the official news agency CTK:

"Fears regarding the safety of Czechoslovakia's borders are quite unfounded. The Czechoslovak Socialist Republic has enough strength to safely protect its state border with its capitalist neighbors."

The Soviet note is expected to be a chief topic of discussion at the meeting of the 11-member Soviet Politburo and the 11-man presidium of the Czechoslovak party.

In Moscow, the Soviet Defense Ministry announced Tuesday that "military logistic exercises" are under way in the western Ukraine, which borders on Czechoslovakia, as well as in White Russia, Latvia and the Russian Federation. They are to continue until Aug. 10.

The announcement gave no hint that the maneuvers were connected with Soviet pressure against Czechoslovakia's more liberal course. Nevertheless, there was some thinking in Moscow that the army exercises could provide a cover for any Soviet forces that might be preparing for an invasion of Czechoslovakia if the party talks failed to settle the crisis.

The Gila monster does not bite unless it is provoked.

Drs. Harris, McKenzie Report to Kiwanis

DR. LYNN HARRIS

Kiwanian Dean Murphy introduced Dr. Jim McKenzie and Dr. Lynn Harris who represented the local club at Kiwanis International convention in Toronto, Canada this month at Tuesday's luncheon.

DR. JIM MCKENZIE

The two doctors and their wives flew up in their plane to Toronto. They gave a report of the convention and showed films to the club Tuesday. The film covered the convention, Toronto and Niagara Falls.

Algeria to Hold Israeli Passengers

By CARL HARTMAN

Associated Press Writer

PARIS (AP) — The Algerian government still held a hijacked Israeli jetliner and 21 or 22 Israeli citizens today after releasing 23 non-Israeli passengers.

The El Al Boeing 707 was diverted to Algiers on a flight from Rome to Israel early Tuesday by three members of the Front for the Liberation of Palestine, an Arab sabotage organization. The front asked the Algerian government to hold the Israelis aboard the plane as hostages for Arab commandos held prisoner in Israel, but there was no public response from Algiers and no demand for a swap.

Twenty of the released passengers were flown to Paris. They included two Americans, Rina Uziel, 23, of Brooklyn, N.Y., and Gabriel Galz, 17, a student from Long Beach, Calif., who finally arrived in Tel Aviv today with four other passengers.

Three Jewish passengers who were not Israeli citizens were flown to Marseille. Reports of the number of Israelis held in Algiers differed. El Al, the Israeli national airline, said 10 crew members and 12 passengers were detained. The Algerians said they were holding 11 passengers along with the 10 crew members.

The three hijackers also apparently were in Algiers. The Israeli government asked U.N. Secretary General U Thant and the Italian government to intercede with the Algerians for release of the \$6 million jetliner and the Israeli citizens. Italy sent an emissary to Algiers.

Algeria is still technically at war with Israel following the Arab-Israeli war in June 1967, and Israel has never had diplomatic relations with any of the Arab governments.

Although the several Arab guerrilla organizations have sent commando squads into Israel repeatedly on terrorist and sabotage missions, this was the first Israeli plane ever hijacked. One of the passengers who was released, Leon Papu, a Colombian, said the plane's copilot staggered into the passenger compartment 20 minutes after the takeoff from Rome.

"He was bleeding profusely from a head wound and his shirt was covered in blood," said Papu. "We heard he had been hit over the head by a revolver. He told us the plane had been hijacked."

Chino Raccach, a 29-year-old Libyan, said one of the hijackers drew his finger through the

blood of the injured man.

"He licked it," Raccach reported, "and said in Hebrew: 'Jewish blood is very sweet.' He added 'We shall throw all the Jews into the sea,' and then quickly said 'we want peace.'"

Two "baldish men" covered the passengers with revolvers and hand grenades, the passengers said, and another was with the pilot.

The men told the passengers to keep quiet, hold their hands above their heads and they

would not be harmed.

A Danish passenger said one of the hijackers took over the controls and brought the jetliner down in Algiers to a good landing.

Young Galz said the passengers were frightened but members of the plane crew tried to comfort the non-Israelis by telling them the hijackers were concerned only with Israeli citizens.

Landing in Algiers before dawn, the passengers were taken

to a barren building at the airport and kept there together until midday.

"All we had until then was some coffee and a roll," Galz said. "Then they separated us. The Israelis were taken away. We were asked who we were, why we were going to Israel. After we were separated, all of a sudden we were like guests."

"We were given a good meal and taken on a tour of the city before we were put on a plane to Paris."

HOLLYWOOD, Calif. (AP) — Rear Adm. Maurice R. Pierce, 81, a pioneer in construction of the first U.S. dirigibles, died Tuesday. Pierce, a 1908 graduate of the U.S. Naval Academy, served as a submarine officer and Navy aviator. He retired in 1947.

Post's Plane
The airplane "Winnie Mae" is associated with Wiley Post. This was the name of the plane in which Post made the first round-the-world solo flight.

Obituaries

(from page one)

ROBERT CHESTER MAY
Robert Chester May, 75, of Hope died in a Hope hospital Monday after a lengthy illness. He was a member of the Bodcaw Baptist Church. He is survived by one son, Harry R. Crestview, Florida, four daughters, Mrs. Jay Wright, Hope; Mrs. Alta Bearden and Miss Robble May, Texarkana; Mrs. Charles Yocom, Calena Park, Texas; six brothers, Albert, W. M., Hope; Roy C., Rosston; J. W., H. C., and V. B. of Bodcaw; H. H. of Magnolia, two sisters, Mrs. Maude Bodea and Mrs. Perry McCargo of Lavena, Texas, 12 grandchildren and 6 great-grandchildren.

Services were held today at 3 p.m. in the Bodcaw No. 2 Church with Rev. Allison Brown officiating. Burial was in Union Cemetery. Smith Funeral Home of Stamps was in charge of arrangements.

NEW YORK (AP) — Margaret Price, 55, vice chairman of the Democratic National Committee since 1960, died Tuesday.

Mrs. Price, a member of the committee since 1952, lived in Washington, D.C. with her husband Hickman Price Jr.

NEW HAVEN, Conn. (AP) — James T. Babb, 69, Yale University librarian for 20 years until his retirement in 1965, died Sunday. During the Kennedy administration Babb was named by Mrs. John F. Kennedy to assemble a library for the White House.

The final witness was Deputy Atty. Gen. Christopher Warren, who was called for questioning about a Justice Department memorandum reviewing Fortas' service on the Supreme Court and crediting him with "an unusual degree of judicial restraint."

The committee concluded nine days of public hearings Tuesday on a sensational note when Sen. Strom Thurmond, R-S.C., displayed magazines with pictures of nude men and women in suggestive poses and said that distribution of such "hard-core pornography" has become much worse since Fortas has been a Supreme Court justice in 1965.

Congress is expected to recess at the end of next week until after Labor Day because of the Republican and Democratic national conventions.

The committee called into closed session today, seems unlikely to finish its hearings in time for the full Senate to act before September on the nomination, which includes the appointment of federal Judge Homer Thornberry to be an associate justice.

Chairman James O. Eastland, D-Miss., said he never predicts what the committee may do, but told newsmen he could not conceive of the Fortas nomination being brought up in the Senate before September.

SOCIETY

Phone 7-3431 Between 8 a.m. and 4 p.m.

Calendar of Events

THURSDAY, JULY 25

The Millwood Shrine Club will have a business and dinner meeting Thursday, July 25 at 7 p.m. at Joda's Cafe in Nashville. Hope members and those living south of Hope are asked to meet at Whitfield Masonic Lodge at 8:15 p.m., July 25, so that they may go to Nashville in a group. Important business regarding a visit by Potentate Barnes in August and securing Shrine candidates will be discussed.

SATURDAY, JULY 27

The Bodecay Riding Club will sponsor a rodeo at 8 p.m., Saturday, July 27 with a Pig Scramble for youngsters, Barrel Racing, Pole Bending, Flag Racing, Junior and Senior Bull Riding, a Rope Scramble, and other events. Admission is 25 cents and 50 cents, and sandwiches, cakes, and desserts will be on sale. Entrants are needed for all events.

SUNDAY, JULY 28

A Mixed Scotch Ball Golf Tournament will be played at the Hope Country Club on Sunday, July 28 beginning at 4:30 p.m. This has been called a Fun Tournament, and it will be followed by a covered dish supper. Host couples are all members from Lewisville: Mr. and Mrs. Albert Bray, Mr. and Mrs. John Beatty, and Mr. and Mrs. Boyett Powell.

LOCAL BRIDGE CLUB MEETS

Mrs. Emmett Thompson and Mrs. A. K. Holloway formed the winning team at the Hope Duplicate Bridge Club meeting Monday, July 22 when it met at the Diamond. In second place were Mrs. R. T. White and Mrs. Comer Boyett.

Holding third position in a three-way tie were: Mrs. Marie Hendrix and Mrs. Harry Hawthorne, Mrs. E. P. Young, Jr., and Mrs. E. J. Whitman, Mrs. Taylor Stuart and Mrs. J. C. Broyles.

There will be a Winners Game Wednesday, July 24 at 7:30 p.m. at the Diamond, and all Duplicate players are invited.

Births

Mr. and Mrs. Charles Garrett of Texarkana are the parents of their first child, a girl, born July 22 at Wadley Hospital in Texarkana. She weighed 9 pounds, 2½ ounces and has been named Trina Denette. Grandparents are Mr. and Mrs. Bill Burke of Hope and Mr. and Mrs. C. V. Garrett of Cale.

Coming, Going

Mr. and Mrs. John Honea, Jeff and Lynn, Little Rock, spent

last weekend with Mr. and Mrs. Willis Honea.

Chuck Boyett, Searcy, is visiting his grandparents, Mr. and Mrs. Comer Boyett.

Jeanne Pruden, Jumanne Reynolds, Susan McCain, and Linda Britt were weekend guests of Ellen Turner, Carol Anthony, and Candy Harris at Arkansas Tech in Russellville. Also in Russellville for the week-end were Danny Key, David Fincher, Montie Garner, and Billy Gibson.

Visiting Bill McKenzie on Friday at Tech were Dr. and Mrs. Jim McKenzie, daughter and granddaughter. Going to Tech Friday was Kester Holmes to bring home Debbie Holmes and Susan Clark, summer school students at Tech and they returned Sunday with Mr. and Mrs. Reed Clark and Mary Beth Levens.

Engagement Announced

Mr. and Mrs. Howard T. Garner of Hope announce the engagement and approaching marriage of their daughter, Marsha to Rev. Thomas Bullard of Hope. Rev. Bullard is the son of Mrs. Earl Gaulet of Los Angeles, California and Mr. Ralph Bullard of Hope.

Miss Garner is a graduate of Hope High School and is presently attending Southern State College where she is a Junior.

Mr. Bullard is a graduate of Hope High School. He is in the U. S. Navy and is presently stationed in Viet Nam.

Rev. Charles Jones will officiate the wedding of July 28 at the Bethany Baptist Church in Springhill at 3 p.m.

No cards will be sent. All friends and relatives are invited.

SHOWBEAT

HONOLULU—(NEA)—The assistant director pulled the trigger and fired into the banyan tree. He was just shooting blanks to scare off the

birds whose incessant chirping was ruining the sound track—but the shots were symbolic of the relationship between CBS' new series, Hawaii Five-O, and the beautiful island where it is filmed.

Like the birds in the banyan tree, Hawaii really doesn't know what is going on. The islanders are warm and friendly toward the project. Grandparents are Mr. and Mrs. Bill Burke of Hope and Mr. and Mrs. C. V. Garrett of Cale.

They may not like the fact that it is a crime show, and projects an image of a crime-ridden island.

LET'S TALK ABOUT MOVIES

By VELDA SEAMANS

"THE SLENDER THREAD" with two academy award winners, Ann Bancroft and Sidney Poitier shows for the last time at the Saenger tonight.

Starting Thursday, "SHE," the all-woman goddess comes back to bring more men to their knees and new worlds to their destruction. "THE VENGEANCE OF SHE,"

Sunday thru Wednesday will be a special scheduled performance, "THE BIBLE," it tells a continuous story from Adam and Eve through the Saga Of

Abraham. There will be one showing each night and a matinee Monday. Advance tickets are now on sale.

At the Dixie Drive In this weekend is "YOUNG WARRIORS" and "IN THE HEAT OF THE NIGHT," the academy award winning picture of 1967, showing Thursday, Friday and Saturday, "THE GRUESOME TWOSOME" and "SOMETHING WEIRD" will start Sunday for 3 days.

There will be a special feature for the late show at the Saenger Sat, Nite,

Jap Judo Tunic New Fashion Idea

By LUCIE NOEL
AP Fashion Writer

PARIS (AP) — Jeanne Lanvin's winter collection is beautifully styled, featuring new fabrics with rich, glittering embroidery reminiscent of the Italian and French Renaissance.

His new silhouette concentrates on the Japanese judo tunic which is treated for day in Paris black and for evening in plain or novelty fabrics.

Jules Francois Crahay, Lanvin's designer, resorts to variations of the tunics as styled wrap-around sheaths. Most are fringed, and there is a wide choice of fringes in cocktail and evening clothes.

Many of these simple, clinging sheaths show a Persian influence and are decorated in Koran embroideries.

Nearly all models for after-five wear are cluttered with multiple, jewel chains, some reaching almost to the floor-length hemlines.

Daytime hemlines clear the kneecaps and are often two or three inches above.

Marie Christine, Lanvin's 15-year-old mannequin, showed no stage fright in her first public appearance. Hair stylist Alexander made her bridal headdress a fantasy dedicated to the glory of Venice.

Even the Hawaiians in the cast are walking around with their heads in the clouds. Kam Fong, one of several Hawaiians with continuing roles, compares Hawaii Five-O very favorably with the old clinker, Hawaiian Eye.

"This series," he says, with a scrutable smile, "is in color, and the people on the mainland will see our beautiful island."

True, the company is shooting all over Oahu—the main island, home of Honolulu and Waikiki. There is only one small interior set, the rest being location work. So far it has all been on Oahu, but ultimately they plan to visit the outer islands, too.

So the scenery will be lovely. But the content of Hawaii Five-O is crime and the solving of crime, and knowledgeable Hawaiians worry lest the mainlanders get the idea that Hawaii is one big criminal lair.

They were shooting at the idyllic home of a state senator on Noela Drive, on the slopes of Diamond Head. The camera was set up on the lanai, by the pool, shaded by the huge, gnarled banyan and the graceful, whispering shower trees and the delicate, fragrant plumeria. The house itself was done in an architectural style which someone called Spanish-Chinese.

All beautiful. But what the actors were talking about was murder—violent, explosive murder.

And, perhaps, because of it, their off-camera conversation was about violence, too. Jack Lord, the series star, and guest star Simon Oakland talked about television and violence.

Oakland has strong opinions. Once he had told me he thought television violence was good, because it allowed the public to work off its aggressions vicariously. He still feels the same, even in this era of dedicated (on paper) antiviolence.

"They should show more blood on the screen," he said. "They should show what a bullet and a knife can do to human flesh. Don't dwell on

Suede Goes Back to School

THERE IS NOTHING MORE FASHIONABLE for fall than suede. The three-piece sueded pigskin suit (left) will always keep its shape because the bolero jacket is underlined with Pellon as is the set-in high rising belt of the softly gathered skirt. The long-sleeved blouse is of silk paisley. Pellon also interlines the teal color suede cape and double-breasted coat and belt (right). This magnificent invernness has detachable cape collar. These designs are by Monika of Mallory.

HELEN HELP US!

by Helen Bottel

THE WICKED STEP-CHILDREN

Dear Helen: Much has been written about the bad step-parents, but how about step-children who break up a marriage? Marriage alone is precarious enough, a second marriage even more so. But when the children play the game of pitting one parent against the other, it is fatal—and the main losers are the children. Adults can survive another hurt, but the children lose the chance of having a whole family.

Perhaps if there had been only one step-daughter instead of two,

it, but show enough to scare the kids."

"Did you see a picture called 'Psycho'?" Lord asked. "I was in it," Oakland said. "I played the psychiatrist."

"Right after it came out," Lord went on, "a girl somewhere—it might have been Chicago—was killed the same way Janet Leigh was in 'Psycho.' If the picture hadn't been made, that girl would still be alive. No picture is worth a human life."

"She'd have been killed some other way," Oakland said. Lord, despite his feelings about violence—and he believes that no one should be allowed to own a gun—does not think that Hawaii Five-O is harmful. He thinks its advocacy of law and order is helpful, that one episode does more than millions of "Support Your Local Police" bumper stickers, that television must show a conflict between good and evil.

"No," he says, "there is no contradiction here. Why, I've even gone so far—with my partner, Leonard Freeman, the producer—that we've turned down a merchandising deal worth a lot of money. They wanted to bring out a line of Hawaii Five-O toy guns. We said no. We said let's take a stand on what we believe, and we said no."

The birds were back in the banyan tree. The guns hadn't scared them, either.

things might have been different. But they stood together against me, never once letting me forget I had moved in where I wasn't wanted. Pictures of their dead mother were everywhere. No matter what I did, it wasn't the way "mother would have done it." The little digs, the cruelties, the never-ending efforts to get me in bad with their father—all took their toll. I finally had to file for divorce or have a nervous breakdown. But even now it hasn't stopped. They've spread it around that I'm "deserting" their father and them. And because the name "step-mother," like mother-in-law, conjures up an "evil" image, people believe them.

It's too late for me, but won't you please urge children to give the new parent a chance? She (or he) is taking on a big job. Without a little acceptance—and a lot of faith, hope and charity, she can't make it. —NOT REALLY WICKED STEP-MOTHER

Dear Mother: It's too bad people can't learn how to get along with each other as easily as they learn the ABCs. Then, all we'd need for the "step-situation" is a crash course in New Family Life.

Sometimes—not always—counseling helps. But the best advice comes BEFORE a second marriage: "Proceed with Extreme Caution!" Win the kids' friendship FIRST, for if you don't, it will be twice as hard after you move in. . . . And if you can't, think twice about the move!—H

Dear Helen: My husband! He gets up in an air conditioned house, drives to work in an air conditioned car. Spends the day in cool comfort, with an air conditioned lunch. Then he drives home in his cool car to an ice cold drink and an easy chair in an even-temperated house.

What does he say as he flops down?

"Man, this heat sure takes it out of you!"

. . . . And I go outside to finish up the yard work, start the barbecue, and pick up toys—in the

still-bolling sun!

Seems to me the breadwinner gets all the gravy. The only time HE faces the sun is on his Sunday golf games. —SIZZLING

Dear Sir: Hand him a garden hoe for a Saturday work-out—and hope he settles for the lawn mower—while you clean house in air conditioned "comfort." —H

Dear Helen: Sales clerks may have it rough, but I'll bet they wouldn't trade for what we telephone operators have to take. Here's a typical day.

A customer calls to place a person-to-person call to John Jones in Los Angeles. He knows neither the address nor the man's middle initial. Should we try all 200 listed? Well why not, for heaven's sake —Isn't that our job?

Another wants Nova Scotia information. When we ask the name of the city, we're stupid. Doesn't he realize this is like asking for California information?

People refuse to dial direct for local calls, long distance, information or time. We operators must average 22 calls on tickets an hour. This does not include assist or emergency calls, or spelling words for children.

At all times we are expected to have a pleasing tone of voice. How pleasant can one be when the customer blows his nose, coughs, sneezes, snorts, swears, clears his throat, mumbles, or tries to get sexy? Our questions are ignored, yet it is OUR fault for incorrect information given. It is very annoying to have some moron with an eighth-grade education call us ignorant. Many of us are part time or full time college students, capable of using common sense without abuse. —TELEPHONE OPERATOR

Dear T.O.: When you serve the public, you take the bad with the good. And the nuts DO make life interesting. . . . I keep telling myself as I read some of those wild "Hate Helen" letters. —H

Horticulturists have developed a tulip that looks black at a distance but really is dark maroon.

BIRDS IN HER BONNET assures attention for actress-model June Bough who wore this hat while attending a regatta at Henley, England.

Television and Radio

EDITOR'S NOTE — Actor Eddie Albert's public personality at the moment is that of the innocent city sucker being victimized by the country slickers in the CBS comedy series, "Green Acres." Everyone knows, however that it is merely acting, for in recent months he appeared with an inspirational reading on a variety show or as the narrator of a special "How Life Begins," describing sex for young viewers. Here Albert reveals his serious, off-camera self.

By EDDIE ALBERT

HOLLYWOOD (AP) — I don't want to be the biggest star in the entertainment world, and the main reason is that there's so little time. The bigger you are, the more of your time it takes up, and the less time you have to investigate the world around you and its wonders. In my youth I deliberately set out to become a vagabond and a drifter as part of my growth, but after I'd had my fill I realized that there are more subtle ways of exploring.

Once Burl Ives and I got the urge to see what it was like to be alone in a Mexican desert with a gun, a guitar and two cans of tomato juice. We got lost and came back across the border on Dec. 7, 1941.

My urge for adventure was taken care of for the next two years in the Pacific, where I saw action on Tarawa and came out of the war with spiritual shell shock.

For the past 12 years my major hobby has been horticulture. I practice two techniques, liquid culture and organic gardening. I grow normal and abnormal plants, giving the latter the chemical treatment, and I take special pride in the size and beauty of the flowers.

I get some of the seeds from the research people at Oak Ridge who study the effects of

radiation on various substances. The mutations are unpredictable — I never know if I'm going to rear a monster or a marvel.

I read about a trip down the Danube in a canoe, so I flew to Europe and paddled my own canoe over the same route in 1965. I once read a book which sent me on an introspective journey to a tiny island off Nova Scotia to meditate. Unfortunately, I became ill and had to be brought out by oxcart.

I made a film called "Human Growth" which caused some controversy in 1947 because it taught 12-year-olds about sex. It is now something of a classroom classic. I understand, and to my great joy I won a prize at the Venice Film Festival in 1965.

I want to make a film short in which a Catholic boy explains Judaism to a Protestant boy, a Protestant boy explains Catholicism to a Jewish boy and a Jewish boy explains Protestantism to a Catholic boy.

I'd like to be 20 years old again and look like Gregory Peck.

I'd like to have 24 hours a day just to plan and enjoy things a little more.

I'd like to take that canoe trip down the Danube again this time with my son, and stop at Budapest and sing with the Gypsies in Romania.

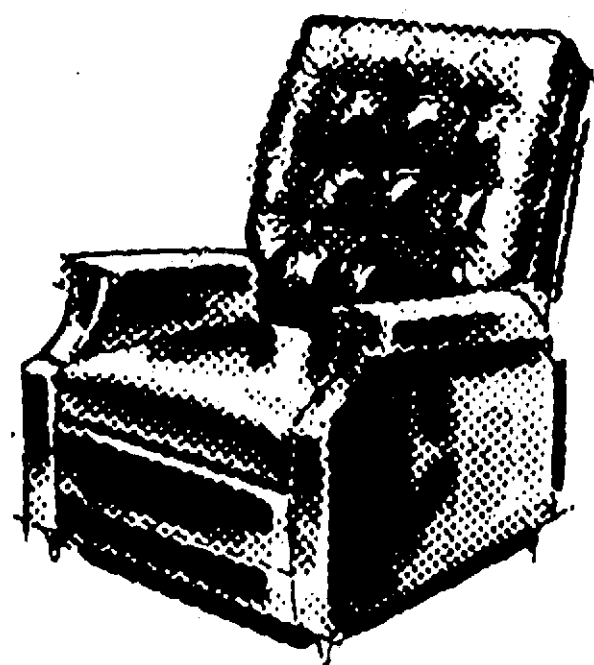

I want to live to be 100. There's so little time.

Cynthia Lowry is on vacation.

Eye Refresher

Only albinos and rabbits are supposed to have pink eyes. However, eye strain attacks everyone from time to time, producing a rabby look that doesn't add to attractiveness. Red, irritated eyes are caused by many factors, such as late hours, over-use of eyes, outdoor glare or smog, and distance driving. To return natural sparkle and whiteness to eyes, do what many photographic models do—use decongestant eye drops.

Tigers Edge Washington by 5 to 4

By HERSCHEL NISSENSEN
Associated Press Sports Writer
Add Detroit's Mayo Smith to the list of push-button managers. First he pushed the panic button by starting Denny McLain with only two days' rest. But just when the Tigers were in danger of losing again he hit the right one and out popped two pinch hitters who turned the game around.

When the wheels had stopped turning Detroit had a 6-4 victory over Washington Tuesday night and a six-game lead in the American League as Baltimore stopped Cleveland 8-6 and jumped back over the Indians into second place.

Elsewhere, the New York Yankees downed Boston 4-1 and California and Minnesota split a doubleheader by 3-1 scores, the Angels taking the opener and the Twins the nightcap. The Chicago White Sox led Oakland 3-0 after 2½ innings before they were rained out.

In the National League, St. Louis walloped Philadelphia 11-5, the New York Mets edged Atlanta 2-1, Cincinnati nipped Pittsburgh 7-6 in 12 innings, Los Angeles stopped Houston 3-1 and San Francisco shaded the Chicago Cubs 4-3 in 10 innings.

Detroit trailed Washington 4-3 on the strength of Frank Howard's 28th homer in the second inning and a three-run outburst in the sixth. But Phil Ortega walked Al Kaline to open the eighth, Willie Horton sacrificed him to second and Bill Freehan also walked.

Pinch hitter Jim Price singled home the tying run against Barry Moore and after Dave Baldwin got Norm Cash to foul out, Gates Brown, another pinch hitter, singled in the go-ahead run. The Tigers scored an insurance run in the ninth on Jim Northrup's double and a single by Kaline.

The late-inning fireworks provided Denny McLain with his 19th victory, although he left in the eighth for a pinch hitter. It was the third time this month a Detroit starter had worked with two days' rest—a month in which the Tigers' lead had dropped from 9½ to five games before Tuesday night's action—and the third time this season for McLain.

"We were very fortunate," Smith said. "Maybe we needed a game like this to turn us around."

The Tigers had lost eight of 12 games since the All-Star break. Boog Powell's three-run homer and Dave Johnson's two-run triple powered Baltimore past Cleveland. Powell doubled home a run in the first inning and then scored on Brooks Robinson's homer. Jose Cardenal put the Indians ahead 4-3 with a fifth-inning homer.

But Powell unloaded his 16th homer in the bottom of the inning and Johnson's triple in the eighth offset a Cleveland run in the eighth and Joe Azcue's homer in the ninth.

The Yankees utilized a bases-loaded walk to beat Boston, Juan Pizarro walked Frank Fernandez with two out in the seventh inning to force home the tie-breaking run.

Tom Tresh homered in the fifth for their first run and they added two in the eighth. Stan Bahnsen went the route for the Yankees.

Ask State to Quit Flyway Unit

NEW ORLEANS, La. (AP)—The Louisiana Wildlife and Fisheries Commission said Tuesday it expected Arkansas to take the same action it did and resign from the Mississippi Flyway Council.

Hugh Hackler, director of the Arkansas Game and Fish Commission, was out of town Tuesday and not available for comment.

The Louisiana commission's action came at the request of the New Orleans Sportsmen League. The request came in the form of a protest over the cancellation of Louisiana's September teal season.

The recommendations of the Flyway Council weigh heavily on the federal government's final decisions governing water fowl regulations.

Rams Lose Big Tackle, Who Retires

By ED SCHUYLER JR.
Associated Press Sports Writer
Roosevelt Grier, a 287-pound veteran, is finished with pro football. Definitely. Sam McDowell, a 350-pound—maybe more—rookie, is ready to start his career. Maybe.

A Los Angeles Rams' spokesman said Tuesday the 36-year-old Grier, a defensive tackle for 11 National Football League seasons, has retired to devote his time to show business and working for "harmony and peace among races."

Grier sat out last year with a ruptured Achilles tendon.

When McDowell, an offensive tackle who was the Miami Dolphins' ninth-round draft choice, signed his contract, it was stipulated that he report to camp. McDowell reported Tuesday, stepped on the scales and the needle bounced to the maximum 350 pounds. His total weight could be only estimated.

He was held out of the American Football League's first full-scale workout, and Joe Thomas, director of player personnel, said a decision on McDowell's status would be made shortly. In a National Football League trade Tuesday, the Dallas Cowboys acquired kicker Mike Clark from the Pittsburgh Steelers for an undisclosed draft choice. Clark is expected to fill a vacancy created when Danny Villanueva retired last week.

Defensive safety Jerry Richardson quit the Atlanta Falcons and defensive tackle Dennis Randall left the New York Jets' camp.

Officials of the NFL Falcons said Richardson quit when his demand for a three-game guarantee for the 1968 season was refused. Richardson needed to be activated for at least three more games to be eligible for a five-year NFL pension.

A spokesman for the AFL Jets said he didn't expect Randall to return. Club officials said he was unhappy and had several business opportunities. Tackle John Johnson, a five-year NFL veteran, and rookie halfback Gary Lyle still had not reported to the Chicago Bears' camp, and Coach Jim Dooley said each would be fined \$250 for every day they are absent.

Dooley also announced that defensive back Roosevelt Taylor had signed. And George Halas Jr. announced the Bears are willing to trade defensive back Richie Petitbon to New Orleans for the Saints' No. 1 draft pick. Petitbon recently announced he would retire if not traded to the Saints because he cannot leave New Orleans for business reasons.

Veterans John Wooten and Ross Fichtner, put on waivers by Cleveland recently after stories broke concerning an alleged racial slight, became free agents after no other NFL club claimed them. Wooten, a guard, is a Negro. Defensive back Fichtner is white.

Texans Beat Travelers by 4 to 1

ARLINGTON, Tex. (AP)—Dallas-Fort Worth collected 11 hits and whipped Arkansas 4-1 Tuesday night in a Texas League game.

The victory extended the Spurs' winning streak to four. Tom Fullen twirled a four-hitter for the Spurs and struck out six.

The Travelers spoiled his shutout in the seventh on an infield single by Bill Murphy with two out and a triple by Leron Lee.

Jim Cosman was the loser for Arkansas.

The Spurs broke the game open in the sixth with three runs.

In another league game, Shreveport whipped Memphis 3-1 at Shreveport on Hal Breedon's two-run home run in the seventh inning. Paul Row suffered the loss for Memphis, his eighth against four victories.

McCovey Bats Giants to 4-3 Victory

By DICK COUCH
Associated Press Sports Writer
Willie McCovey stepped off the plane in San Francisco early Tuesday evening, but as far as the Chicago Cubs are concerned his feet still haven't touched the ground.

McCovey flew to Los Angeles for an examination of his gimpy right knee, then winged back home in time to stroke four hits, including a two-out 10th inning homer that gave the Giants and Juan Marichal a 4-3 triumph over the Cubs.

Marichal checked the Cubs on five singles before nailing his 18th victory in 22 decisions when McCovey unloaded home run No. 24.

Elsewhere in the National League, the streaking Cincinnati Reds shrugged off a two-run ninth inning homer by Pittsburgh player-coach Bill Virdon and nipped the Pirates 7-6 in the 12th; first-place St. Louis walloped Philadelphia 11-5, the New York Mets edged Atlanta 2-1 and Los Angeles topped Houston 3-1.

Detroit downed Washington 6-4, Baltimore beat Cleveland 8-6, New York trimmed Boston 4-1 and Minnesota divided a doubleheader with California, winning the nightcap 3-1 after bowing 3-1 in the first game, in American League action. Oakland and Chicago were rained out after 2½ innings.

McCovey made his trip to Los Angeles to consult with Dr. Robert Kerlan regarding the knee injury that had been bothering for more than two weeks.

Dr. Kerlan found a touch of arthritis in the knee, but the Cubs soon discovered there's nothing wrong with the towering first baseman's wristaction.

McCovey drove in one of the Giants' two first inning runs with the first of his three singles. His run-scoring single in the fifth gave Marichal a 3-1 lead, but the Cubs rallied for two runs in the seventh to knot it.

Lamabe got past Ron Hunt and Willie Mays in the 10th, but McCovey broke the deadlock with a blast into the left-center field seats.

Marichal applied an 0-for-5 collar to Glenn Beckert, snapping the Cub second baseman's season-high hitting streak at 27 games.

The Reds bunched the last four of their 20 hits in the 12th inning to break a 5-5 tie at Pittsburgh after 37-year-old Virdon, reactivated last week after a three-year absence from the majors, sent the game into overtime with his ninth-inning homer off relief ace Ted Abernathy.

Tony Perez' fifth hit, a run-scoring single, gave the Reds a 6-5 lead and Tommy Helms followed with another RBI single, offsetting a Pittsburgh run in the bottom of the 12th and insuring Cincinnati's fifth straight victory.

Home runs by Ed Kranepool and Ron Swoboda and tight relief pitching by Cal Koonce carried the Mets past the Braves, who have dropped five in a row.

Kranepool hit his second homer of the year in the second inning and Swoboda crashed his first since June 10th in the sixth before Koonce rescued winner Tom Seaver in the eighth.

Two doubles by Roger Maris drove in four of St. Louis' 16 runs in the first three innings as the Cardinals stretched Philadelphia's losing string to five with a 14-hit barrage.

Lou Brock and Mike Shannon delivered two runs apiece for the Cardinals, who lead the second place Braves by 1½ games.

Bob Bailey's leadoff homer in the sixth—the first hit off Mike Culler—and run-scoring singles by Ted Savage and pitcher Claude Osteen brought the Dodgers from behind against Houston.

Osteen scattered seven hits in bringing his season mark to 8-14.

Solunar Tables

By RICHARD ALDEN KNIGHT

The schedule of Solunar Periods, as printed below, has been taken from Richard Alden Knight's SOLUNAR TABLES. Plan your days so that you will be fishing in good territory or hunting in good cover during these times, if you wish to find the best sport that each day has to offer.

The Major Periods are shown in boldface type. These begin at the times shown and last for an hour and a half or two hours thereafter. The Minor Periods, shown in regular type, are of somewhat shorter duration. Use Central Daylight Saving time.

Old Pros to Sit Out St. Paul Tourney

ST. PAUL, Minn. (AP)—The \$100,000 Minnesota Classic—the closest thing to an institution on the pro golfing tour—opens a four-day run Thursday without most of the big name golfers.

The oldest tournament on the PGA circuit, the meet originated in 1930 as the St. Paul Open.

Such stars as Jack Nicklaus, Arnold Palmer, Billy Casper, Doug Sanders, Gary Player, Masters champion Bob Goaly and newly-crowned PGA champ Julius Boros will be sitting out the tournament. The field of 150 will be packed with young pros.

Lee Trevino, colorful U.S. Open champion, and young Tom Weiskopf, currently the leading money winner of 1968, are rated the favorites. Defending champion Lou Graham and 1965 titlist Ray Floyd are back for another fling at the \$20,000 first-prize money.

Par at the 6,702-yard Keller golf course is 35-36-71. Mike Souchak holds the tourney record with a 263 in 1958—23 strokes under par.

The National Basketball Association team called a news conference Tuesday to report Pollin had bought out Arnie Heft and Earl Foreman, confirming the sole ownership of the Baltimore Bullets.

By GORDON BEARD
Associated Press Sports Writer
BALTIMORE (AP)—Abe Pollin, who bought out his partners rather than quit an unsuccessful venture with a profit, is the sole owner of the Baltimore Bullets.

Par at the 6,702-yard Keller golf course is 35-36-71. Mike Souchak holds the tourney record with a 263 in 1958—23 strokes under par.

Other results were Timothy Fitzgerald of Little Rock, 259; Steve Horton, Orlando, Fla., 250; Bill McLean, Little Rock, 248; Pete Rowan, Quivira, Kan., 244; Doug Horan, Tyler, Tex., 227; Dan Daugherty, Little Rock, 224; and Noydie Turner, Mattoon, Ill., 216.

Orangutan is the Malay for "wild man of the woods."

Finishing second was Chet Turner of Mattoon, Ill., with 276. Two-time and defending champ Amy Baker of Savannah, Ga., was third at 267.

Other results were Timothy Fitzgerald of Little Rock, 259; Steve Horton, Orlando, Fla., 250; Bill McLean, Little Rock, 248; Pete Rowan, Quivira, Kan., 244; Doug Horan, Tyler, Tex., 227; Dan Daugherty, Little Rock, 224; and Noydie Turner, Mattoon, Ill., 216.

War Near in Tennis Pro Ranks

By WILL GRIMSLEY
Associated Press Sports Writer
NEW YORK (AP)—Robert Kelleher, president of the U.S. Lawn Tennis Association, says a civil war is brewing between pro promoters and the ruling associations and it may not be settled until the pros get a governing body of their own.

"I've often thought the answer was for the pros to have a sort of PGA, the way the golfers do," the Los Angeles attorney said today. "I don't know whether it could be

Curtailment of Mail Not Likely Now

WASHINGTON (AP) — Postmaster Gen. W. Marvin Watson said today action by two congressional committees has encouraged him to believe mail service will not have to be curtailed.

But Watson indicated Congress will have to do still more before the Post Office Department rescinds its announced curtailments in service, the first of which takes effect Saturday.

"The support of these two committees—composed of men most knowledgeable on this complex subject—was to me

further evidence of the credibility of our crisis," Watson said.

"It remains now for the Congress to make its decision," he added. "But I believe there is now some light being cast into what is a somber situation."

Watson's comments were in a speech prepared for 2,000 delegates to the National Postal Forum.

Watson repeated arguments he made before congressional committees in the past two weeks seeking an exemption for the department from manpower cutbacks dictated by President Johnson's 10 per cent income surtax bill.

The beginning of postal cutbacks that Watson has said could lead to closing of 12,000 small branches and eventual four-day delivery in residential areas, comes this Saturday

Whitbeck Claims He Leads Field

By THE ASSOCIATED PRESS
Frank Whitbeck of Little Rock said Tuesday that he was No. 1 in a field of six seeking the Democratic gubernatorial nomination. He said his opponents were "looking at our heels."

Meanwhile, in more political activity Tuesday, two other candidates predicted they could defeat Gov. Winthrop Rockefeller in the Nov. 5 general election.

"I can defeat (Republican Gov.) Winthrop Rockefeller because I can give you the change you wanted two years ago," Ted Boswell of Bryant said at Little Rock.

"I really think I'm the only one (Democrat) that can beat him (Rockefeller)," Mrs. Virginia Johnson of Conway said at El Dorado.

Whitbeck said at a watermelon fete given by his employees at his American Foundation Life Insurance Co. Building at Little Rock that "everything is on the move... things are beginning to blossom out... the momentum is building this week."

"After next Tuesday, I'm going to get 24 hours of rest, and then I'm going to start again," Whitbeck said. "Then, the next stop will be Nov. 5 (the general election)."

Boswell also proposed Tuesday a change in the procedures used by the state Insurance Department in determining insurance rate increases.

He was critical of the recent 26 per cent average increase in automobile liability insurance rates in Pulaski County. He said he did not believe the justification for an increase was adequately explained to the consumer.

Boswell also continued his verbal attack on his four male opponents, linking each to the "old guard."

"The dissident Democrats and independents won't vote for the Democrats in November if 'you offer the same old hodgepodge of candidates you have in the past,'" Boswell said. "They're saying the same tired, worn-out things and people are tired of hearing it."

Boswell also criticized Rockefeller for supporting a bill to provide state turnback funds for use by an Association of Arkansas Counties. He said the proposal was pushed hard by Rep. Marion Crank, another Democratic candidate for governor, and that Rockefeller was "a strange consort in that activity."

Mrs. Johnson said she was confident of being able to defeat Rockefeller because she wasn't tied to any particular interest, "the old machine or the new machine."

She identified the "new machine" as "anyone connected to Rockefeller."

In her speech Tuesday night at El Dorado, Mrs. Johnson criticized the state Game and Fish Commission, saying the commission should not be made up of members on the basis of their political affiliations.

She said when she was elected she would propose that hunters and fishermen submit a list of men they want appointed.

Mrs. Johnson also said the state Constitution "needs some updating," but she said, "I

MORNING SUN rises over the headwaters of the Ottawa River, deep in the wooded wilderness of Canada's Quebec. Starting as a meandering stream, the river grows in size until it reaches a flow of 367,000 cubic feet a second.

Unions Unite on Social Issues

CHICAGO (AP) — The nation's two largest labor unions have announced formation of an alliance to tackle tough social problems and free the labor movement from "old attitudes and habits."

Officials of the United Auto Workers and the Teamsters stressed Tuesday that formation of the Alliance for Labor Action does not constitute a merger of the two organizations.

The announcement was made jointly at a news conference by Walter P. Reuther, president of the 1.6-million-member UAW, and Frank Fitzsimmons, general vice president of the 1.8 million Teamsters whose president, James R. Hoffa, is serving a federal prison term.

"In this time of crisis, dynamic and responsible labor organizations must contribute leadership and provide teamwork toward the continual advance... of working people and must work together... to find answers to the urgent problems of the whole of our society," a statement released at a news conference said.

Neither union is a member of the AFL-CIO. The Teamsters were dismissed from the AFL-CIO in 1957 and the UAW disaffiliated July 1.

The union spokesmen termed formation of the ALA "the most important labor development in recent years. The two unions will begin to organize unorganized workers, especially agricultural workers, and will push into social areas in which the UAW pioneered."

"The labor movement is at a crossroad," the statement said. "It must free itself of old attitudes and habits and demonstrate the willingness, the capability and the commitment to make fundamental changes in its policies that respond to the realities of a swiftly changing world."

Other organizations are invited to join the ALA, Reuther and Fitzsimmons said. A national conference of organization members will be convened early in 1969.

The step into the fields of social aid as long as there were needy Americans, favored a tax exemption greater than \$600, opposed gun control legislation and was for a \$2.50 minimum wage.

Hayes said earlier Tuesday that the National Broadcasting Co. refused to sell him a tape that he said showed Fulbright shaking hands with Communists.

Hayes said an NBC official told him that permission to use the tape would have to be obtained from all pictured before the network would consider selling it.

Hayes said the film showed Fulbright, Secretary of State Dean Rusk and Warren shaking hands with Russians in Washington last October at a celebration of the Russian Revolution.

Hayes said he opposed all for-

cial action and civil rights is a new one for the Teamsters who have been conservatives in the labor movement.

Reuther and Fitzsimmons said the ALA priorities include strengthening collective bargaining procedures, building up an emergency defense fund for use in labor disputes and formation of community unions to work for the poor and dealing with the critical social problems of the day."

Fitzsimmons said: "We will endorse other candidates who meet the principles and aims of the ALA without regard to party."

Jordan and Israel Fire at Border

TEL AVIV, Israel (AP) — Israeli and Jordanian troops fought a brief skirmish across the River Jordan today south of the Sea of Galilee, the army said.

The engagement was touched off when an armored car belonging to the Jordanian police came under light arms fire near Neve Ur in the Betsan Valley, the Israelis charged. The fire was returned.

The army also announced that an Israeli soldier whose command car hit a mine in the upper Galilee Tuesday has died of his injuries. Two other soldiers were wounded in the blast.

Johnson, Hayes Hit Fulbright

By THE ASSOCIATED PRESS
Jim Johnson of Conway and Bobby K. Hayes of Calico Rock, two Democrats seeking to oust Sen. J. William Fulbright from his U.S. Senate seat, continued to unload criticism on the junior senator Tuesday.

Speaking at El Dorado, Johnson said that, in effect, when Fulbright was urging a bombing pause of North Vietnam, Fulbright was saying "Stop the bombing because we're killing too many communists."

Johnson also accused Fulbright of persuading the late President John F. Kennedy "not to give air support to the Bay of Pigs invasion."

"Arkansas would be better off without a senator than to have Fulbright," Johnson said at a rally attended by about 500 persons.

Johnson also criticized Fulbright for saying he would vote to confirm the appointment of Abe Fortas as chief justice of the Supreme Court.

"When Earl Warren resigned, I thought anything would be better," Johnson said, "but when they nominated Fortas, they hit the bottom of the barrel."

Johnson spent about 15 minutes talking about third party presidential candidate George Wallace, about whom he said, "The Lord has given us one more chance to stand up for America."

Johnson also said that the thought did occur to him to send Arkansas delegates favoring Wallace to the Democratic national convention. However, he said that Wallace told him he didn't want to "create a disturbance."

"I don't know of a good Wallace supporter that would go to the national convention," Johnson said. He said the Democrats who are going are "Rockefeller Democrats."

Speaking on television Tuesday night, Hayes said that seniority in the Senate did not qualify a man to obtain all of the benefits possible for a state.

Hayes said the Senate had voted \$178 million more for Appalachia Monday while the Ozark Regional Development project was idled by lack of funds.

"Where was this seniority at then?" he asked. "Asleep? or over in England or Moscow?" Hayes said he opposed all for-

BALANCING ACT in South Vietnam solves this woman's transportation problem. She gave the photographer a fleeting glance as she went about her business in a small village about 12 miles south of Quang Tri City.

made yesterday's play. We think only a small minority would make today's.

Marshall Miles says in his article in "Popular Bridge": "Why does it help to save our high cards until later rounds? It is because as long as both hands can lead a suit it doesn't matter which hand is on lead. When only one hand has cards left in the suit it is vital for that hand to be on lead. For some reason everyone can see why that is true when the entry is an ace, but it is harder to see when the entry is a lower card."

South wins the heart lead in his own hand. He needs the queen of hearts as a later entry to dummy. Then he leads a diamond. West follows with the nine and South should play low from dummy. This play will cost him a trick in the event that West started with two or three diamonds to the ace, but he doesn't need five diamond tricks. Four will give him his contract and probably an overtrick.

Let's see what happens if he plays the king or queen. Nothing bad if East takes his ace right away, but East ducks.

South returns to his hand with a spade and leads a second diamond. This time East takes his ace and South takes a two trick set. He has only one remaining entry to dummy and he does not have the diamond suit established.

If South plays low the first time, East or West will hold the trick. Then, when South leads the second diamond and arises with one of dummy's honors it won't matter whether the ace is played or held back. Dummy will be able to set up the rest of the diamonds, with the queen of hearts as a sure entry.

WORLD ALMANAC FACTS

Q—The bidding has been:

West North East South

Pass 4 ♦ Pass 3 ♠

You, South, hold:

♠ K Q J 10 8 7 6 ♥ 5 3 2 ♦ A 3 2 ♣ 7

What do you do now?

A—Bid four spades. It is customary to play any new suit below game response to an opening three bid as a one round force.

TODAY'S QUESTION

Your partner continues to five clubs. What do you do now?

Answer Tomorrow

SHORT RIBS

By FRANK O'NEAL

More and more, Thursday has come to be payday in America, and when there are five Thursdays in the shortest of all months, February, it's an unusual as well as happy event. It happened this year, 1968. The last previous time was in 1940. The World Almanac notes. It won't occur again, said to say, until 1996.

WHAT IS THE KEY TO SUCCESS?

WOULD YOU SAY THAT THE HEADSMAN IS AN EXCEPTION?

THE DOCTOR SAYS

Even Minute Symptoms Aid Doctor's Diagnosis

By WAYNE G. BRANDSTADT, M.D.

Medical textbooks have diseases neatly sorted out with a description of their cause, symptoms, diagnosis and treatment. But, for your doctor, things are usually not that simple.

A patient may, for example, come in complaining of abdominal pain and the doctor has to take it from there. All pains in the abdomen are not caused by appendicitis.

A woman I once knew had migraine headaches so frequently that she quit thinking about her headaches. When asked what was her chief complaint she said it was abdominal pain and she did, indeed, have a chronic colitis complete with abdominal cramps. They were, however, just a part of her highly nervous state brought on by her migraine, which she did not mention. At the turn of the century, some well-meaning doctor would certainly have removed her appendix.

Another woman who complained of abdominal pain was found on closer questioning not to have pain at all but instead, a severe nausea with its attendant generalized abdominal discomfort. I mention these two women to illustrate how important it is to give your doctor an accurate description of your symptoms, including those you may think are unimportant.

There are a dozen or more causes for abdominal pain or

discomfort but details such as when they come on in relation to meals, whether they are localized in one time spot or are diffused or shifting from one spot to another, whether they ever wake you up out of a sound sleep, whether they tie you up in knots, whether they are relieved after a bowel movement and whether they are associated with other symptoms—are important to your doctor. The more exactly you can describe them, the more you can aid him to make a correct diagnosis.

For some types of abdominal pain it is helpful to keep a diary of the precise time of occurrence and everything you have eaten at mealtimes and between meals. Remember, your doctor is not a veterinarian accustomed to dealing only with inarticulate animals. The more help you can give him, the better care he can give you.

Q—You recently stated that the prescription drug, oxyphenbutazone, would be good for an infected prostate. Has it any other name?

A—Yes. Tandearil.

Bugged by Germ Warfare Research—Seeks Ban

DEMONSTRATORS BLOCK the entrance to the Porton Down chemical and germ warfare research center. The center is under fire from leftwing student groups because it was here that a particularly potent riot gas was developed.

By TOM A. CULLEN
European Staff Correspondent

LONDON—(NEA)—A recent television program showing dogs being used for nerve gas experiments sent a shudder through this nation that may have widespread repercussions.

For the British, as everyone knows, are a nation of animal-lovers, and are prepared to tolerate most things as long as one is not beastly to pets.

Now, thanks largely to the TV documentary on animal experiments, the British government has solid backing in Geneva, where it is demanding stiff international control over

chemical and germ warfare research.

Specifically, the British want an extension of the 1925 Geneva Protocol on toxic warfare from the 18-power disarmament conference which reconvened July 18.

At the conference, Britain proposed a seven-point disarmament program which includes prohibition of all chemical and biological weapons.

The feeling in England is that so many new nerve gases and germ aerosols have been developed in recent years that a new international convention is needed in order to prevent them from being

used. There is also a strong feeling that chemical-biological warfare (CBW) information should be denied to nations that are not signatory to the 1925 Geneva Protocol. This would bar the British government, which is a signatory, from exchanging such information with the United States, which has never ratified the protocol.

The anti-germ warfare faction here includes Members of Parliament and scientists, as well as religious leaders. Three Nobel Prize-winning scientists were among the group of savants who recently

signed a letter to the prime minister demanding that CBW research be declassified and transferred from the Ministry of Defense to the Health Ministry.

After listening to its past chairman, Lord Soper, describe all such research as "this filthy stuff," the Methodist Conference voted unanimously to condemn it.

Not unexpectedly, Britain's leftwing students have taken an active part in the anti-germ warfare campaign. Student anarchists and Christian nuclear disarmers joined forces recently to stage a "lie-down" in front of the Porton Down Establishment in Wiltshire, where CBW research is centered.

Student commandos have also marched on the Ministry of Defense in Whitehall, and barred scientists engaged in CBW research from lecturing at Essex and Birmingham universities.

Porton Down, the huge chemical and germ warfare center in Wiltshire, in particular has been under fire. It was here that British scientists first discovered the riot gas known as CS, which is more potent than ordinary tear gas, and which causes nausea and vomiting as well as a burning sensation in the eyes.

CS, which is manufactured in Cornwall and sold to police forces all over the world at \$4.25 a pound, is supposed to leave no permanent effects, but it is said to have caused deaths in Vietnam, according to Dr. Steven Rose, a CBW expert.

The confusion concerning CBW here is partly due to faulty public relations at government level. For example, the research work at Porton Down is kept so heavily shrouded in secrecy that the establishment has gained a sinister reputation.

Much of this work, however, could come under the heading

of preventive medicine. For example, Porton Down scientists are on the brink of producing a vaccine against brucellosis, a cattle disease which can be transmitted to humans. Also, they have isolated a highly dangerous monkey disease which killed seven German scientists last year.

"There is no question of our work having an offensive objective," says Dr. Gordon Smith, in charge of germ warfare research at Porton. "We feel we have a moral obligation to protect Britain against this kind of warfare, to which Britain, as an island, is particularly vulnerable."

Chemical-biological warfare is sometimes known as the "poor man's H-bomb," meaning that it is within the means of any underdeveloped nation that has a few microbiologists available.

A leading supporter of President Johnson's Supreme Court appointments says that Senate testimony has hurt chances Abe Fortas will be confirmed as chief justice.

The Senate approves an additional \$153 million in a move to overcome air traffic jams at the nation's busiest airports.

The administration's foreign aid program suffers another setback in Congress.

A congressional advocate of gun controls says the House will approve the proposal to restrict sales of rifles and shotguns.

The 1909 Lincoln cent was the first U.S. coin to bear a recognized portrait.

LATEST ADDITION to the ever-growing number of towers is the 626-foot Husky Tower in Calgary, Alberta, Canada. The 82-story concrete and steel structure has a 210-seat revolving restaurant at the top.

shores could be highly lethal if sprayed from a plane, and this quantity could be produced with very little knowledge, using a brewery or a university laboratory as a blind. Similarly, the production of nerve gases can be disguised as insecticides, which they closely resemble.

These are some of the problems which the Geneva Disarmament Conference has to wrestle with as a result of the British initiative which has the backing of 57 million animal-lovers.

Futuristic Fantasy

If all the people in the world were represented in a town of 1,000 population, only 180 of these inhabitants would be Americans. The remaining 840 would be from other lands.

When you narrow the world's population down to that perspective, it becomes even more amazing that the population of the United States, with only one-sixth of the world's population and one-sixth of the world's land area, produces and consumes from 25 to 30% of the world's supply of beef, veal, pork and lamb.

In this country, each consumer spends a little less than 18% of each after-tax dollar for food. In Russia, the food tab comes to 53 cents out of each dollar.

Everyone's A Critic

Digesting the news no longer means you are interested in the news-of-the-day, you could be a University of Pennsylvania cow. Latest research has indicated that a two-and-a-half pound newspaper dipped in molasses and supplemented with some corn silage can be nutritious feed for "Bossy."

This nutrition research on dairy animals is one of the more unusual examples of the multi-million dollar research effort of agricultural universities, government, and private business to improve agricultural products.

Citizens Of Hempstead County:

My election as Chairman of the Arkansas Legislative Council reflects credit and honor to you, and you and our state departments, commissions and agencies of government located in Hempstead County will be the beneficiaries of this key position now held by your Representative. Since my election as Chairman of the Arkansas Legislative Council many of you have asked me what is the Arkansas Legislative Council. It is a joint ad interim committee of the Legislature consisting of 30 members of the House and Senate. Due to the limited 60 days in which the Legislature can meet in regular session during each two years it is essential that the Legislature have an opportunity to study and keep informed on current problems facing our state. For example your Representative has over 10 studies pending in the Council - All of importance to you the People of Hempstead County. Perhaps the most important money wise is a study to determine the cost to our State of implementing Title 19 of the Medicare program. The Legislature has the responsibility of appropriating the public funds necessary to run our State government.

The Legislative Council was established as an interim committee to serve the Legislature in studying governmental problems and in preparing recommendations for the State's budgets. This fall the Council will hold hearings to determine the budgets that will be recommended for all of the various agencies, commissions, and departments of our three branches of State Government - the Legislative, Judicial and Executive. We will consider and recommend for each year of the next two years a budget in excess of a half a billion dollars. Your state government has become the biggest business in Arkansas and your Representative, as Chairman of the Arkansas Legislative Council, will have the responsibility of conferring and working with these agencies, commissions and departments in preparation for their respective presentations, and presiding over all of the budget hearings. While the Arkansas Legislative Council can only prepare and recommend the various budgets to the Legislature when it meets in regular session it has been my observation that the Legislature always ends up approving and enacting into law about 99 per cent of the Council's budget recommendations which does indeed reflect a high degree of confidence in the work of the Legislative Council. Here in Hempstead County the following agencies of our State government, and institutions receiving state and federal funds, will be, as previously, intently interested in the outcome of these budget hearings: Red River Vocational Technical School, University of Arkansas Experiment Station, Welfare Department, Highway Department, Health Department, Forestry Department, Game and Fish, State Police, Weight Station, Weight Division of the Highway Department, our Public Schools, our Hospitals, our Nursing Homes, Employment Security, Farm Labor Information Center, Revenue Department, and National Guard.

These budget hearings are work, and so are the studies of governmental problems. Nevertheless, the budget hearings alone, not even considering the various studies made by the council, save our state during a two year period approximately \$270,400, which is the amount it would cost the Legislature to assume these responsibilities were the Legislative Council abolished.

Forty-three states now have a Legislative Council or similar agency. Even though 7 states do not have a Legislative Council or similar agency, most of the 7 states, especially California, Hawaii, New York, Oregon and West Virginia make considerable use of Legislative interim committees and have extensive legislative staff services.

Our Legislative Council was first created at the 1947 session of the General Assembly. Dr. Robert Leflar, Distinguished Professor of Law at the University of Arkansas, School of Law, had for a number of years urged the creation of a Legislative Council and it was mainly through his efforts, as well as those of many other public spirited citizens, that the Council became a reality.

You may rely upon your Representative to utilize to the utmost his position on the Council, and as Chairman to represent you to the best of his ability. Your vote and support on July 30th will be sincerely appreciated.

Wallace Invades Deep North

By TOM TIEDE
NEA Staff Correspondent

NEWBURYPORT, Mass. — (NEA) — George Wallace drove into town just before noon, ran a comb through his hair, wiped the corners of his mouth, and mounted an open air platform outside the Masonic Temple.

There was light, polite applause.

"Thank y'!" the candidate said, waving, "nice to see y'all."

Four hundred people were gathered in the street: men with shirt buttons open, women wearing floppy-brimmed sunhats, children sucking colored Italian ice. It was hot and moist and the crowd squirmed under the sun.

George Wallace smiled professionally. He wore a dark suit and tie. His large black eyebrows were motionless. He fumbled with the microphone.

A man in the crowd turned to his wife and commented, "Well, at least he doesn't have horns."

The candidate's arrival was welcome. The pre-Wallace program had been amateurish. A man with a big belly and a steel guitar had performed (he called it "picked"). Two polka-dotted sisters (Mona and Lisa) had gargled through "In Them Old Cotton Fields Back Home."

But here at last was Wallace.

"Give it to 'em George," somebody joked.

He did. "You know what's wrong with the government?"

He began. "It can't win the war in Vietnam because it's too busy gettin' everybody to take baths together. They tell people on this side of town to take baths on that side, and people on that side of town to take baths on this side."

The audience giggled.

"Now, this protesting and demonstrating is another thing. The President can't even travel without some anarchist lying down in front of his car. Well, if any anarchist ever lays down in front of my car, it'll be the last time he ever does."

The audience laughed.

"I'm sick and tired of all the treason going on in the colleges. Some of the professors and students are just a bunch of goddamned traitors."

He turned to the spectators, many of them downtown employees, and did not hear. They seemed mesmerized by the speaker and George Wallace was just warming up.

The audience cheered.

Pretty young girls appeared and began to move into the crowd. Each wore a Wallace For President sash, a Wallace For President hat, a Wallace For President button. Each one also carried a Wallace For President donation cup.

"Would you like to contribute?" Jennifer Brewer, 18, asked.

A thin man in a T shirt turned red as she smiled. He reached into his pocket, fetched a dollar bill and argued: "Actually, I'm for Mr. Nixon."

"Thank you," Jennifer Brewer said.

A church bell on Green Street announced the lunch hour. The spectators, many of them downtown employees, did not hear. They seemed mesmerized by the speaker and George Wallace was just warming up.

Learns While She Earns

By ROGER DOUGHTY
NEA Staff Correspondent

NEW YORK—(NEA)—Ask the average college girl about her career plans and it's doubtful that you'll find many who are bubbling with enthusiasm about the prospect of becoming researchers. Researching is dull work, they'll tell you. How little they know.

Take, for example, Linda Kriedel.

Want to know which dating bars swing the most (and in which direction), or where you can stock up on pornography, or what the nude actors and actresses think about when they step on stage in the raw? Linda knows.

Or perhaps you're more interested in finding out who thinks God is dead or what the rest of the Protestants think about Dr. Pike or what clergymen think about the future of the church. Linda has the answers again. She found out in the line of duty.

A 1966 graduate of Smith College, Linda is a researcher for Time-Life Books, which may not sound like the most exciting way for a young girl to spend her working hours in New York. But when you're doing the kind of research Linda has been doing, nothing could be further from the truth.

Recently, for four momentous months, Linda worked simultaneously (if not schizophrenically) on two books: "Sex in the Sixties" and "Can Christianity Survive?"

"They had more in common than you might think," she says.

To prove that research can indeed be fun, Linda explains that she dug up her data for "Sex in the Sixties" by making the rounds of all the dating bars, buying up all the pornography she could get hold of, answering interesting ads in underground publications and generally finding out all she could about what Congregationist minister and educator Robert Fitch calls the "orgy of open-mindedness" in the United States today.

"The dating bars are both funny and sad," says Linda. "I sat around all night and made notes on what lines worked the best and who picked up who and who didn't make out at all. The dumbest girls seem to do the best. Of course it helps if they're good-looking, but the thicker they are the better they seem to

make out. There's a standing rule in a lot of places that the bartender gets whatever is left over and since I was there to work, not mingle, I was always what was left over. I left a lot of disappointed bartenders."

Once, Linda recalls, with a deadline drawing near, she rushed to a bookstore that specializes in pornography and picked up a couple of items that looked especially erotic.

"For some reason I can't explain," she explains, "books like that cost more than most ordinary paperbacks and I didn't have enough money to pay for the ones I wanted. I asked the man who runs the store if it would be all right if I took the books and came back later with the rest of the money. At first he was hesitant, but when I told him I just had to have them he smiled and said, 'O.K. honey, if you need them that badly go ahead and take 'em.'"

All the while Linda was stocking her private library with the kind of material the public repositories won't handle, she was also reading everything she could find on religion and dashing from off-Broadway plays (where she studied audience reaction as well as the nudes) to churches, where she spent hours talking to priests, ministers and just about anybody else with a valid thought on the fate of Christianity.

While researching "Can Christianity Survive?" Linda found herself up to her ears in the debates over birth control and clerical celibacy, the effect of affluence, education, permissiveness and unlimited quantities of leisure time on religion and the changes ahead.

"I found," she says, "that the religious leaders and the people connected with the sexual revolution are similar in that they both establish guidelines for how people should go through the day. Everyone wants to change something, but it seems that nobody can agree on what to change and how to change it."

Linda's conclusions after four months' research:

On Christianity: "I'm very discouraged. I keep wondering if the church is playing an important part in anyone's life."

On sex: "Where will it end?"

On being a researcher: "It's

really fun. Before this last assignment I researched a book on the hippies."

And you thought it was dull work.

Weaverbirds

The weaverbird, a small sparrowlike bird which builds a roof over its nest, is so-called because these birds weave their nests together in tree colonies, sometimes over an area of several square miles, according to the Encyclopedia Britannica.

I asked the man who runs the store if it would be all right if I took the books and came back later with the rest of the money. At first he was hesitant, but when I told him I just had to have them he smiled and said, 'O.K. honey, if you need them that badly go ahead and take 'em.'"

All the while Linda was stocking her private library with the kind of material the public repositories won't handle, she was also reading everything she could find on religion and dashing from off-Broadway plays (where she studied audience reaction as well as the nudes) to churches, where she spent hours talking to priests, ministers and just about anybody else with a valid thought on the fate of Christianity.

While researching "Can Christianity Survive?" Linda found herself up to her ears in the debates over birth control and clerical celibacy, the effect of affluence, education, permissiveness and unlimited quantities of leisure time on religion and the changes ahead.

"I found," she says, "that the religious leaders and the people connected with the sexual revolution are similar in that they both establish guidelines for how people should go through the day. Everyone wants to change something, but it seems that nobody can agree on what to change and how to change it."

Linda's conclusions after four months' research:

On Christianity: "I'm very discouraged. I keep wondering if the church is playing an important part in anyone's life."

On sex: "Where will it end?"

On being a researcher: "It's

really fun. Before this last assignment I researched a book on the hippies."

And you thought it was dull work.

Weaverbirds

The weaverbird, a small sparrowlike bird which builds a roof over its nest, is so-called because these birds weave their nests together in tree colonies, sometimes over an area of several square miles, according to the Encyclopedia Britannica.

Once, Linda recalls, with a deadline drawing near, she rushed to a bookstore that specializes in pornography and picked up a couple of items that looked especially erotic.

"For some reason I can't explain," she explains, "books like that cost more than most ordinary paperbacks and I didn't have enough money to pay for the ones I wanted. I asked the man who runs the store if it would be all right if I took the books and came back later with the rest of the money. At first he was hesitant, but when I told him I just had to have them he smiled and said, 'O.K. honey, if you need them that badly go ahead and take 'em.'"

U.S. Adviser Performs Nearly Forgotten Role in Vietnam

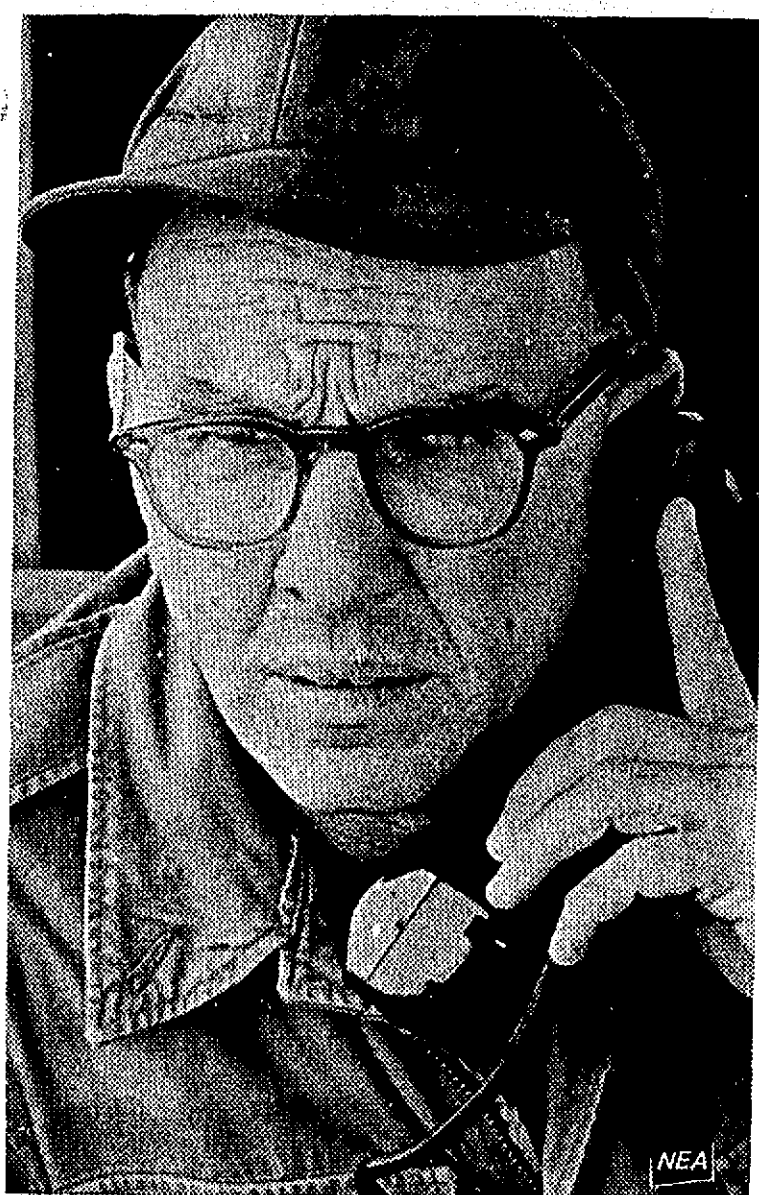

PATROLLING a canal in the Mekong Delta is a French-built command boat of the Vietnamese River Assault Group (RAG) 31. It is on such a craft that U.S. Navy Chief Gunner's Mate Edmund B. Canby lives and works with the Vietnamese while advising the RAG on modern methods of naval warfare.

EATING TOGETHER, advisers use chopsticks in the traditional manner. Chief Canby has become quite expert with the oriental utensils. Through close association, Canby has earned the respect and admiration of the Vietnamese he advises and trains.

MILITARY STRATEGY is discussed by Chief Gunner's Mate Canby and Lt. Truong Thanh Tan, commanding officer of the River Assault Group. The chief's 24 years of naval experience are a valuable asset in fulfilling his advisory role.

RADIOTELEPHONE keeps Canby in touch with other military units. While on operations, he uses radio to direct air strikes or call for artillery fire on enemy positions.

WORKING TOGETHER. Canby advises a Vietnamese crewman on operation of an 81mm mortar aboard a command boat. Working and living with members of the Vietnamese navy is part of Canby's job as a U.S. naval adviser.

Governors' Parley Mum on Vietnam

By WALTER R. MEARS
Associated Press Writer
CINCINNATI, Ohio (AP) — President Johnson has declared he will not waver from a Vietnam policy he called just and reasonable, despite "the pressures and strains that come normally in any political year."

The nation's governors who heard that pledge had no plans to attempt to match it with one of their own. The 60th National Governors Conference held its final session today, and the agenda did not touch on Vietnam.

One Democrat who praised the Johnson stand said any attempt to put the conference on record in support of U.S. policy on the war and negotiations would stir dissension which could do more harm than good.

Johnson spent an hour Tuesday night at the conference which has been marked by the political maneuvering by and

for candidates to succeed him when he retires from the White House next Jan. 20.

Before a black-tie crowd of more than 2,000 persons at the governors' ball, Johnson declared:

"Our nation wants peace, our government wants peace, our men in Vietnam want peace and your President wants peace. Yet some among us seem to feel that I or we alone can bring peace to Vietnam. They seem to ignore the presence and irreconcilability of the enemy."

Johnson said he had promised battleground restraint in announcing he would not run again for the White House, and has kept that promise.

"We are willing to go as far as honor and safety permit us to go," he said. "But we are not going to impose a coalition government—or any kind of government—on the people of South Vietnam."

"Nor are we going to let the totalitarians impose a Communist government of their direction either," the President said. That drew one of only two rounds of applause which came

during his address.

"The days we're going through and the days ahead are going to be difficult ones," Johnson said. "But we are determined to press the search for peace even as we resist aggression on the battlefield. We are going to continue to resist the efforts to split our country wide open and divide our citizens."

Outside the Cincinnati convention center, scores of pickets marched the sidewalk, many waving placards critical of Johnson and the war. "Peace now," they chanted intermittently.

"With all the power at my command I am going to do my duty as I see it, regardless of the pressures and strains that come normally in any political year," Johnson said.

He said he and President Nguyen Van Thieu of South Vietnam agreed that a cease fire, with effective controls and guarantees, could be part of a war settlement. They agreed also, Johnson said, "that an honorable and secure peace would assure the right of the South Vietnamese people to decide their own affairs without exter-

nal interference."

"That is the position of the U.S. government," Johnson said. "It is fair, it is just, it is reasonable and it is firm. We hope and pray for the best and are prepared for whatever comes."

ATKINSON HONORED
NEW YORK (AP) — The 14th annual Kelsey Allen Award was presented May 23 to Brooks Atkinson, retired drama critic of The New York Times, for his "devotion to the theater as reviewer, author, critic and humanist."

The award was established by friends of the late Kelsey Allen, who was drama critic of Women's Wear Daily and Daily News Record. Previous winners include George Freedley, Lee Strasberg, Louise Beck, Peggy Wood, Mayor John Lindsay, Vincent Sardi Sr., Edward Kook, Rosamond Gilder, and John Gassner.

Atkinson received a hand-lettered scroll and a watch. A native of Melrose, Mass., he went to The Times drama department in 1925. He went to China for the paper in 1942 and to Russia in 1945. Reporting from Russia won the Pulitzer Prize for him in 1947. He returned to the drama beat, from which he retired in 1960.

Thanks, Arkansas for giving us three months of your time.

Since we started out on the campaign trail, we have visited in almost every community in the state. You always made us feel welcome. But, at the same time, you wanted some honest answers to some basic questions about the affairs of this state. We only hope our ideas captured your imagination.

It is our sincere wish that you will allow us to repay you by letting us devote two years of our life in your service.

U.S. military advisers have been organizing and training the Vietnamese armed forces since 1955.

In 1965, however, when American combat troops entered the conflict, the advisers' activities were shunted to the background. The adviser has become the "forgotten man" of Vietnam. One such is U.S. Navy Chief Gunner's Mate Edmund B. Canby. Canby, 44, was first assigned to Vietnam duty in 1964. His bravery and leadership under fire have earned him 10 Crosses of Gallantry from the Vietnamese government as well as four Bronze Star Medals, two Air Medals and numerous campaign ribbons from the United States. A native of Galesburg, Ill., Canby has applied for another extension of duty in Vietnam. He likes his job as adviser and has nothing but praise for the men of the River Assault Group with whom he works.

Long Nights and Days
Incredibly cold nights on Pluto last 76.5 hours, followed by an equal period of daylight but the sun shines only feebly. This dark, frigid and barren planet is the ninth and most-distant known planet in the solar system.

Highway 29
Rerouting Poses
Real Problem

Your editor covered Tuesday night's city hall hearing on the rerouting of State Highway 29 through Hope to connect with Interstate 30 — and I think everyone who was there came away with a new understanding of the problems and the delays accompanying this project.

Frankly I am skeptical of the State Highway Department's approach to the relocation project, and sympathize with the property owners in the corridor which is proposed for condemnation. Originally the disturbed homeowners were those along Hervey Street — now the Edgewood - Second Street area is tagged.

On one point, however, Lester Jester, the highway department spokesman, scored. He pointed out that the Highway 29 project is not merely a bypass but must serve as an artery carrying local traffic to the access point on Interstate 30. This is his principal argument for bringing No. 29 South directly to the center of population — rather than making a circuitous approach in a thinly-settled area as would be expected of a bypass road.

A bypass road would permit higher highway speeds, compelling local users to drive a bit farther to reach Interstate 30 access, while the department's proposal would make the access easier to reach but would slow down No. 29 South traffic coming into Hope.

Which will it be? That's the question.

Vote Favors Strike in Steel Mills

By DOUG BAILEY
Associated Press Writer
PITTSBURGH (AP) — United Steelworkers union members have armed their negotiators with an overwhelming vote of confidence as they race against a strike deadline a week away.

Thousands of the rank and file, in meetings, by voice, and by ballot across the nation, told their bargainers they would walk out of the mills if no contract is signed by Aug. 1.

Although the negotiations are secret, no money is believed to be on the table for the big dollar items like wages, pensions, vacations and unemployment insurance.

"This will shake the money loose," said one union district director as he reported his men better than 90 per cent in favor of a strike.

The vote, taken Tuesday in 600 union halls across the country, was the first of its kind for the nation's third largest union.

Reports from 83 locals representing about 180,000 men showed that some 3,700, or just over 2 per cent, were opposed. Figures from a dozen that took secret paper ballots showed 14 per cent opposed.

Each local was allowed to take the vote as it pleased.

Nasser Is Accused of Seeking War

JERUSALEM (AP) — Israeli Foreign Minister Abba Eban said today that President Gamal Abdel Nasser is looking for a new war to liquidate Israel.

The Egyptian president told the inaugural congress of his Arab Socialist Union in Cairo Tuesday that the Middle East crisis "could explode any minute" into a world conflict.

He said prospects for a settlement with Israel were slim and U.N. efforts to bring about peace in the area had gained nothing.

Eban called Nasser's speech "a brutally clear and conducive picture of . . . a policy of total, unreserved and uncompromising opposition to peace."

Cleveland Snipers Kill 10 in Riot

CLEVELAND (AP) — Snipers — shooting from rooftops, windows and behind bushes — launched a reign of terror at dusk Tuesday that left 10 persons dead in a predominantly Negro neighborhood on Cleveland's East Side.

Four of those killed were white, three of them policemen. Police said two of the victims were Negro snipers.

At least 18 others were hurt, two critically, in the three-hour gun battle with police that shattered the calm of a hot summer night. Scattered arson and looting followed the shooting.

Twenty-four persons were arrested, 17 on looting charges.

It ended, except for scattered gun shots, just before a heavy thunderstorm about midnight cooled off the steaming streets and dampened some blazes started by firebombs.

National Guardsmen and police, armed with rifles, patrolled the area today.

The shooting began, witnesses said, when two Negro snipers "carrying rifles and . . . sacks of ammunition," ran out of an alley, crouched behind bushes and shot three white policemen, the first victims.

Later two snipers were killed. Bayonets, shotgun shells, gas masks and first aid kits were found on the bodies.

Waves of police, some using Brink's armored trucks, turned the neighborhood into an armed camp.

Tear gas and smoke bombs burst on the sidewalks and against buildings. Officers and some residents became ill from the fumes.

The shooting scene, on Lakeview Road near 125th Street, is about a mile from the Hough area where four Negroes were killed in rioting and looting just two years ago on five other hot July nights.

When the gunfire erupted, police radio calls came thick and fast and had a tone of desperation.

"Things are pretty bad down here," said one. "We're pinned down. The wounded men are lying in the street. We can't get to them. Get some armored cars."

Police reinforcements were rushed in — and some tried to chase small boys, attracted by the gunfire, off the streets.

Gov. James A. Rhodes, alerted at the National Governors Conference in Cincinnati, promptly mobilized Ohio's 15,250 National Guardsmen.

What's the Use of Being Middle-Aged If You Can't Brag?

By HAL BOYLE
NEW YORK (AP) — What's the use of being middle-aged if you can't brag about it?

Oddly enough, some people can't. They take their entrance into the middle years of life as a defeat rather than a victory, as a kind of dead end rather than as just another interesting corridor.

Others retreat into pretense and try to hide the fact they are middle-aged. Trying to hide middle age is like trying to smuggle an elephant through a subway turnstile. It isn't an easy thing to do, and it can be very wearing on the spirit.

If you are middle-aged and are trying to disguise it, you must limit your conduct in many careful ways. For example you can't —

Mention any film by name in which you saw Shirley Temple act.

Dance the Charleston.

Describe the taste of bathtub gin.

Claim that Man O'War could beat Damascus by three lengths in a mile and a quarter race with one hoof tied behind his back.

Argue that golf has gone steadily downhill since Bobby Jones hung up his putter.

Get goose pimples at the very mention of Greta Garbo's name.

Do an imitation of Al Jolson singing "Mammy."

Point out how much more useful congressmen were to the people in the days when you

Revival Sunday at Patmos Baptist

Patmos Baptist Church will begin revival services Sunday, July 28. Services will be held nightly at 7:30. Rev. Gay Polk, pastor of the Southside Baptist Church, will be the evangelist for the meeting.

The church invited and welcomes all who will attend.

9 Migrants Die in Grade Collision

NEWTONVILLE, N.J. (AP) — A two-car passenger train plowed into a farm labor bus Tuesday night, killing nine of the migrants and injuring 20 others in this South Jersey community.

State police said the two self-propelled diesel cars of the Pennsylvania-Reading Seashore Lines, carrying some 100 passengers, tore the old school bus in two and threw the rear half 300 feet down the track. No one on the train was injured.

State police accounted for 39 bus passengers, but did not know exactly how many were aboard.

State police said the train was southbound from Philadelphia to Jersey shore points where it passed the crossing, which is marked with painted railroad warning signs but no lights. It was not known how fast the train was traveling.

The speed limit for trains in that section is 70 miles an hour, according to state police.

The farm bus was returning migrant workers from a dairy farm to Chester, Pa., according to Mayor John Krokos of Buena Vista Township.

State Trooper John Caruso said the bus driver, Love Clark, 33, of Wilmington, Del., had with him a Delaware driver's license which had expired in March 1968.

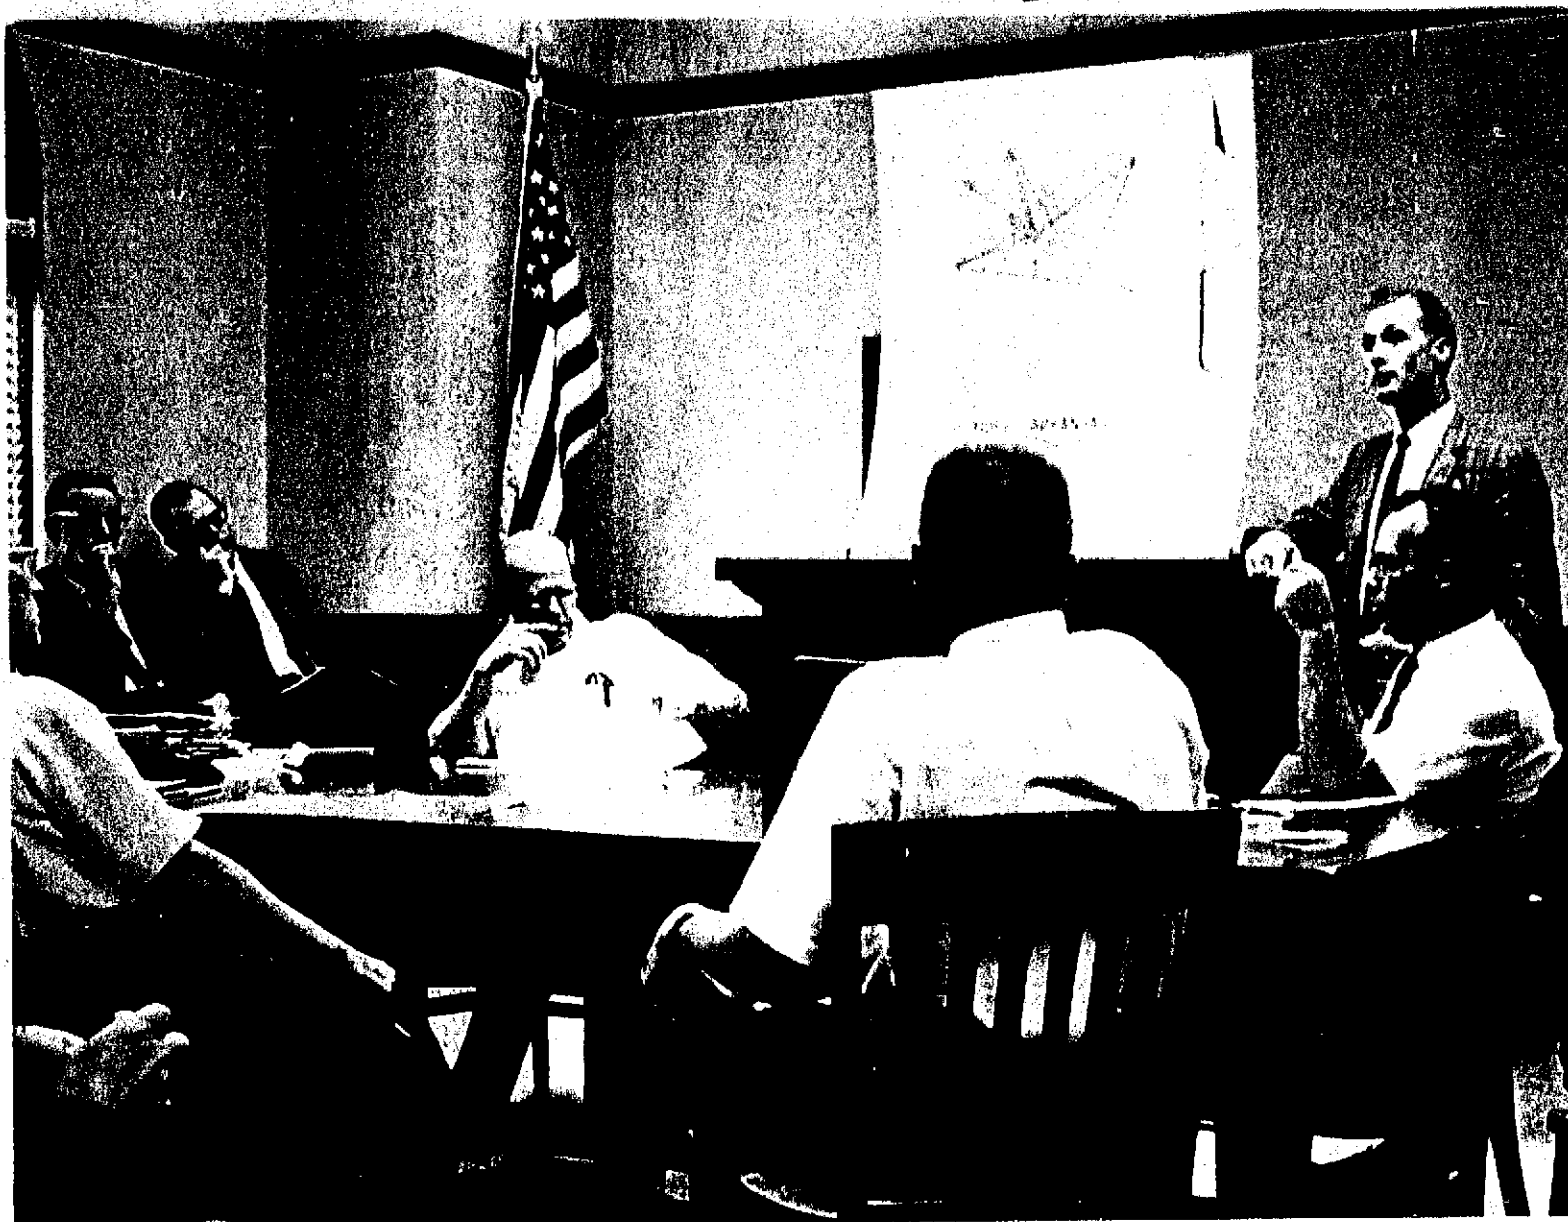

Clark was in Kessler Memorial Hospital, Hammonton, with injuries, and no statement had been taken from him.

Prosecutors on Air Today, Thursday

The two candidates for Prosecuting Attorney will each have an hour on "Community Crossroads" on KXAR, W. H. (Dub) Arnold will have Wednesday, July 24 (today), and Bill Denman, Jr., Thursday, July 25, from 6 to 7 p.m., and listeners may call with questions.

The James Dennis Show will not be heard those nights.

'Teen-Age GOP' to Meet Tonight

The Teen-age Republicans will meet tonight (Wednesday) in the home of Ralph Routon at 8 p.m.

Trussell to Supervise Centennial

The Rev. Gerald W. Trussell will serve as master of ceremonies during a three-day centennial celebration of First Baptist church which opens with a church-wide picnic Friday evening at Fair Park.

The Rev. Mr. Trussell came to Hope in January, 1967, and is the current pastor. A graduate of Quachita Baptist College and Southern Theological Seminary, he served as a Navy chaplain during World War II.

He was minister of Warren First Baptist Church from 1952 to 1959, and then was called to Southside Baptist Church of Shreveport where he served until coming to Hope, At Warren and also at Shreveport, he led in a building program for new educational and sanctuary buildings.

Mr. and Mrs. Trussell recently returned to Hope after a European trip in which they visited their daughter, Mrs. Geraldine Trussell Taylor and her husband, Benny.

Soon after the Trussells came to Hope in January of 1967, a new pastorium was completed in The Pine Addition, and since then a new home for the music-educational director has been completed in Westwood Addition. The home is occupied by Mr. and Mrs. Roy Chatham and family.

This year, the church under the leadership of Rev. Trussell, voted a record high budget of \$100,000 and currently is about \$200,000 ahead of budget needs.

The church staff includes in addition to Rev. Trussell and Mr. Chatham, Mrs. Hubert Thrash, secretary; Mrs. Frances Miller, educational secretary; Mrs. Charles Reymerson, financial secretary; Mrs. H. A. Spragins, organist; Mrs. Jewel Moore, Jr., pianist; and Mrs. J. E. Little, custodians.

Fortas Hurt by Refusal to Answer

By JOHN CHADWICK
Associated Press Writer
WASHINGTON (AP) — Testimony during Senate committee hearings into President Johnson's Supreme Court appointments has hurt chances that Abe Fortas will be confirmed as chief justice, according to a leading supporter of the nomination.

Sen. Philip A. Hart, D-Mich., says opponents of the nomination picked up much ammunition during Senate Judiciary Committee hearings into the naming of Fortas, now an associate justice, to succeed retiring Earl Warren.

Hart said that Fortas' refusal to answer questions about his decisions, his acknowledged participation in White House conferences since becoming a member of the court, and testimony attacking his rulings in obscenity cases all provide grist for the opposition.

But he, nonetheless, said he stood by his earlier prediction that the committee would recommend Senate confirmation by a 10-6 margin at worst and possibly by a vote of 12-4.

What happens in the Senate, Hart said, will depend in part on whether Republican opponents decide that fighting his appointment is worth the effort.

Lightning Hits Italian Fuel Dump

PAVIA, Italy (AP) — A bolt of lightning struck an Italian army gasoline dump today, sending flaming gasoline down into the North Italian village of Ravanazzano. Gas pipes exploded, 25 houses were damaged and one collapsed, but only four of the 3,000 villagers were reported injured.

The gasoline dump was on a hill nearly two miles from the village, which is 22 miles from Pavia. The burning gasoline flowed down the hill, through a river and into a canal that crossed the village.

As gas pipes exploded and fires broke out in the village, the panic-stricken inhabitants escaped to the nearby fields.

Firemen from Pavia, Voghera and Milan rushed to the scene, it took them three hours to put out the fire.

Telegraph, telephone, water, electric power and gas lines were damaged. Twenty houses were damaged by explosions, one collapsed and five others were partly burned, according to an initial survey.

Lester Jester, standing at right, head of the Planning and Research Division of the State Highway Department, outlines to the city Board of Directors and a packed municipal courtroom Tuesday night the proposed rerouting of State Highway 29 South in the neighborhood of Edgewood St. to a junction with Interstate 30.

Left to right in picture: City Director Leonard Ellis, City Manager G. G. Medders, City Attorney James H. Plinkinton, City Director Jack Beatty, City Director Clyde Fouse (back to camera), Mr. Jester, and City Director Bill Wray.

Blindfolded South Vietnamese 'Decoy' Backfires on Cong

By GEORGE ESPER
Associated Press Writer

SAIGON (AP) — Using a blindfolded South Vietnamese soldier as a decoy, enemy troops tried to slip through American lines today after losing 31 dead in a night-long battle south of Saigon, military spokesmen reported.

American bombers and artillery pounded a company of about 115 North Vietnamese and Viet Cong infiltrators about 18 miles south of the capital. Some 1,500 rounds of artillery were poured into them during the night, and fighter-bombers continued the attack today. U.S. troops flushed out six enemy with tear gas.

The enemy troops shoved a South Vietnamese prisoner in front of them as a decoy in the predawn darkness, trying to lure the Americans from the 9th Infantry Division into firing on him while they slipped away in small groups.

The plan backfired. A Claymore mine went off, scattering hundreds of shrapnel pieces. It knocked the blindfolded South Vietnamese down but killed three enemy soldiers behind him.

Rescued by the U.S. infantrymen, the South Vietnamese said he had been held captive for two months. He said the enemy was holding eight other captured South Vietnamese soldiers and using them to carry arms and ammunition. Their fate was not known.

The enemy force was believed to be part of six to eight battalions that U.S. intelligence officers say are deployed in Long An province, immediately south of Saigon.

U.S. casualties in the fighting were listed as four dead and seven wounded, including two killed aboard a helicopter shot down by enemy ground fire. Two other choppers were hit, but damage was reported minor.

Rockefeller, Reagan Agree Support for Reagan Is Gaining

By THE ASSOCIATED PRESS
Ronald Reagan and Nelson A. Rockefeller found themselves in agreement today on a surprising point: Both saw growing support for Reagan's unannounced presidential candidacy.

Rockefeller, governor of New York, told newsmen at the National Governors Conference in Cincinnati Tuesday that he knows of 55 delegates, most of them in the South, who have switched from support of Richard M. Nixon as the Republican presidential candidate.

Rockefeller said 37 have lined up behind Reagan and the rest behind his own, announced candidacy.

Despite conceding this shift to Reagan, Rockefeller insisted that only he can win for the Republicans in November.

Reagan, appearing at a separate news conference, didn't have any specific figures, but the California governor said "rather sizeable movements" have sprung up designed to make him a candidate.

"I can't ignore them. It's there," Reagan said. At the same time he reaffirmed his intention to lead the California delegation to the GOP convention as a favorite son and not as an announced national candidate.

The governors conference provided a focal point for Tuesday's nationwide political doings which included a demonstration-marted visit by Vice President Hubert H. Humphrey to New York City, a pitch for Maryland delegates by Eugene J. McCarthy and agreement in electrical workers disputes that had threatened both national conventions.

McCarthy and Humphrey are fighting for the Democratic presidential nomination.

State chief executives trooped into a Cincinnati hotel ballroom for statements and comments throughout a day that was capped with a speech by President Johnson in which he reviewed world and national problems.

Among the convention highlights

George T. Frazier, a Second Street resident, brought out by questioning that Second Street would be blocked by the railroad overpass contemplated on the Edgewood route. However, Mr. Jester said, the overpass would be high enough over Division Street to leave that avenue open.

Mitchell LaGrone: "Why does Highway 29 have to come through a residential section instead of using a sparsely-settled area farther east?" Mr. Jester answered that the State Highway Department is bound by policy to serve the most people possible with an improved road.

Judge Royce Weisenberger, another Second St. resident: "What will be the effect on land values in this area in the future?" Mr. Jester said, "Our experience shows that land values along a road improvement project usually increase."

Mr. Jester added that the proposed Edgewood route visualizes a street of 80 feet or wider.

L. Carter Johnson, Second Street resident: "You say the proposed route is designed to serve the most people, but isn't it a fact that people will use the best road even if it means traveling more miles?" Mr. Jester replied, "Yes, but only on long runs is this true. Our problem is to give the people a short run to obtain access to Interstate 30, in which the railroad overpass is a controlling factor."

Mr. Frazier: "What's wrong with swinging the route farther east where there are fewer residences?" Answer: "This also has been surveyed, but it raises additional problems, particular with respect to the railroad overpass."

CONSULTANT'S VIEW
Sanford Wilburn, of the city's firm of consulting engineers: "Basically we agree with the State Highway Department's study. But all alternatives also must be studied. One such alternative would be Betts Street, farther east. It would miss the concentration of population but would encounter a tougher problem on the overpass at the railroad. We don't like it as well as the Edgewood route."

The earlier study proposal to use Hervey Street is also a possibility, but it involves rebuilding the present railroad underpass and other problems. In any event, if the City of Hope should tell the State Highway Department that right-of-way costs would be prohibitive on all of the present studied routes then it is possible the department would undertake additional studies."

Questioning from the crowd brought out the further fact that cost studies make Hervey Street less attractive than the Edgewood route.

Mr. Jester's final word: "The State Highway Department must have some action from the City of Hope at this time. Perhaps

Criticism, Explanation Mark Meet

A two-and-a-half-hour city hall meeting alternating between criticism and explanation marked the State Highway Department's presentation to the city government Tuesday night of its latest plan to reroute Highway 29 South in a corridor approximating Edgewood Street to effect a junction with Interstate 30.

The plan was detailed by Lester Jester, head of the State Highway Department's Planning and Research Division, assisted by Carrol McChesney, traffic engineer, with additional remarks by Sanford Wilburn, of the consulting engineering firm of Garver and Garver, Little Rock, who had been retained by the City of Hope.

Householders, principally from the city area affected, packed the municipal courtroom for the municipal directors meeting presided over by Mayor Donal Parker.

The mayor reviewed earlier route proposals for Highway 29 South, then turned the meeting over to Mr. Jester. The highway executive cautioned the crowd that the "Edgewood route" is merely a symbol for the corridor under consideration and might not be the exact location as plans are perfected. Mr. Jester said, however, there would be full public hearings when the final plan is reached.

SECOND ST. BLOCKED

George T. Frazier, a Second Street resident, brought out by questioning that Second Street would be blocked by the railroad overpass contemplated on the Edgewood route. However, Mr. Jester said, the overpass would be high enough over Division Street to leave that avenue open.

Mitchell LaGrone: "Why does Highway 29 have to come through a residential section instead of using a sparsely-settled area farther east?" Mr. Jester answered that the State Highway Department is bound by policy to serve the most people possible with an improved road.

Judge Royce Weisenberger, another Second St. resident: "What will be the effect on land values in this area in the future?" Mr. Jester said, "Our experience shows that land values along a road improvement project usually increase."

Mr. Jester added that the proposed Edgewood route visualizes a street of 80 feet or wider.

L. Carter Johnson, Second Street resident: "You say the proposed route is designed to serve the most people, but isn't it a fact that people will use the best road even if it means traveling more miles?" Mr. Jester replied, "Yes, but only on long runs is this true. Our problem is to give the people a short run to obtain access to Interstate 30, in which the railroad overpass is a controlling factor."

Mr. Frazier: "What's wrong with swinging the route farther east where there are fewer residences?" Answer: "This also has been surveyed, but it raises additional problems, particular with respect to the railroad overpass."

CONSULTANT'S VIEW
Sanford Wilburn, of the city's firm of consulting engineers: "Basically we agree with the State Highway Department's study. But all alternatives also must be studied. Cong Ammo Dumps Taken by GIs

By GEORGE ESPER
Associate Press Writer
SAIGON (AP) — Allied forces battled Viet Cong and North Vietnamese troops southwest and east of Saigon today and uncovered sizable weapons caches in other areas near South Vietnam's threatened capital.

In the northern provinces, another vulnerable sector, the Viet Cong kept up the pressure on outposts and provincial capitals with a second day of mortar attacks and light ground probes.

One Viet Cong company broke into a village 15 miles southeast of Da Nang and burned it to the ground, leaving all 1,400 inhabitants homeless, military spokesmen said. Casualties among the villagers and their militia defenders were not immediately known.

In the fighting 18 miles southwest of Saigon, enemy troops using a blindfolded South Vietnamese prisoner as a decoy tried to slip through American lines after losing 34 dead in an all-night fight. Ten Americans of the 9th Infantry Division were reported killed and nine wounded.

American bombers had pounded the company of about 115 North Vietnamese and Viet Cong infiltrators, and some 1,500 rounds of American artillery were poured into an area about 800 yards in diameter during the night.

The enemy troops shoved a South Vietnamese prisoner in front of them in the darkness before dawn, trying to lure the Americans into firing on him while they slipped away in small groups. The plan backfired. A Claymore mine went off, scattering hundreds of sharpnel fragments. It knocked the blindfolded South Vietnamese down but killed three enemy soldiers behind him.

Rescued by the U.S. infantrymen, the South Vietnamese said he had been held captive two months. He said the enemy company was holding eight other South Vietnamese soldiers and using them to carry arms and ammunition. Their fate was not known.

The U.S. troops also sprayed the enemy positions with tear gas, flushing out six of the enemy who were captured.

The enemy force was believed to be part of six to eight battalions that U.S. intelligence officers say are deployed in Long An Province, immediately south of Saigon.

The American casualties included two men killed aboard a helicopter shot down by enemy ground fire. Two other choppers were hit, but damage was reported minor.

Meanwhile, Australian and New Zealand soldiers were locked in heavy fighting with one or two Viet Cong platoons holed up in bunkers about 25 miles east of Saigon.

The infantrymen from down under came under heavy rocket and machine-gun fire as they made repeated attacks on the enemy positions in thick scrub. The task force tried several times to penetrate the Viet Cong bunker complex but was pinned down each time by heavy fire and a thick thorn hedge.

The infantrymen pulled back a few hundred yards this afternoon while dive-bombers pounded the bunkers.

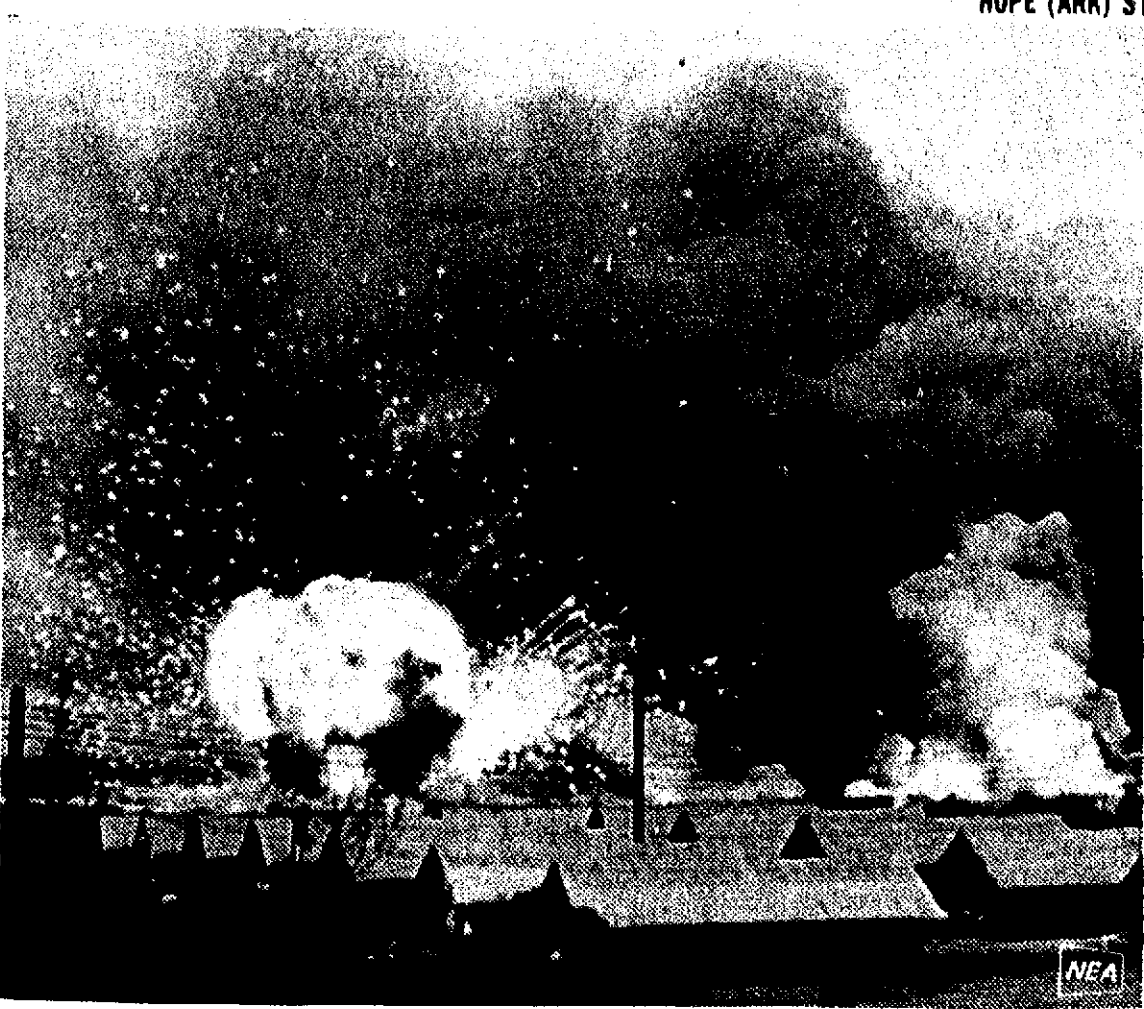

Casualties on either side were not immediately known.

South Vietnamese troops uncovered two weapons caches 15 and 20 miles northwest of Saigon. They included 34 rounds of Chinese 107mm rockets, 44 cases of mixed rifle and machine-gun ammunition and one 50-caliber antiaircraft machine gun.

Units of the U.S. 1st Infantry Division turned up another cache 29 miles north of Saigon. It contained 109 mortar rounds, 1,200 hand grenades, 15 bangalore torpedoes, 30 antitank mines and 7,500 pounds of rice.

IT HAS TO GO. Countess Cecilia Lewenhaupt of Sweden has received the king's permission to set her century-old castle afire. The three-story wooden castle will be burned down later this year when weather conditions are right. The countess said the mansion is too expensive to keep and she wants to build a smaller house on the lot. The structure has no special historic value.

DIRECT HIT from enemy artillery creates havoc at a U.S. ammunition supply point at Dong Ha, South Vietnam. The ammo dump supplies Marine units fighting near the Demilitarized Zone of the war-torn nation.

P.B. School Plan Is Rejected

By THE ASSOCIATED PRESS

The Pine Bluff School District has been told that its desegregation plan, adopted July 9, is inadequate.

The word came in a letter from Carl Flaxman of Dallas, Tex., regional director of the Department of Health, Education and Welfare.

Flaxman said he was referring the district's file to Washington with a recommendation that the department begin administrative enforcement proceedings which could cut off federal aid to the district.

In another development on the school desegregation issue, the Grady School Board denied that its freedom-of-choice school desegregation plan is inadequate to fulfill its obligation to desegregate.

The reply came to a lawsuit filed June 27 in U.S. District Court at Little Rock. The suit seeks "an" order to force the board to adopt a new plan that will achieve a "unitary, non-racial school system."

Also in the federal court, the desegregation cases of Marvell, Crawfordville and Gould will be heard Aug. 6, 7 and 8, respectively.

In the Pine Bluff case, Flaxman said the proposed desegregation plan was inadequate "because there is no detail as to how grades one through nine will totally desegregate and no time was shown when the desegregation of those grades will take place."

Flaxman said if HEW concurs his recommendation the district would be notified by Sept. 1.

The district was told before July 9 that its freedom-of-choice plan was not adequate because six of the district's schools were still attended by Negro students only.

The major points of the July 9 plan were:

Beginning with the 1969 fall term, the district would establish gun ammunition and one 50-caliber antiaircraft machine gun.

Units of the U.S. 1st Infantry Division turned up another cache 29 miles north of Saigon. It contained 109 mortar rounds, 1,200 hand grenades, 15 bangalore torpedoes, 30 antitank mines and 7,500 pounds of rice.

lish one high school for all 10th, 11th and 12th grade students.

Desegregation of grades one through nine would be accomplished "as soon as possible so as to establish a racial ratio in each school as nearly as possible as that of the racial ratio of the district."

The district is about 40 percent Negro. School Supt. Dr. C. B. Harrison said he thought the school board would make another attempt to comply with HEW.

The plaintiffs proposed in the Grady case that the predominantly white elementary school and high school be converted to a high school for all students in grades seven through 12 and that the president Negro elementary school and high school be converted to an elementary school for the remaining students.

The suit also asked the court to enjoin construction of a new gymnasium at the predominantly white Grady High School "until all school facilities" in the district are equal. Construction began June 10.

The board said in its response that such a consolidation plan "cannot now be effected in the district." It did not elaborate.

The board also denied that the Negro high school was "lacking in many respects," as the suit claimed. It said the building was constructed in 1963 and that the outdoor restrooms "were entirely adequate."

In next month's court hearings, Judge Oren Harris of El Dorado will conduct the hearing in the Marvell case. Judge Gordon E. Young will hear the Crawfordville and Gould cases.

The hearing in the Marvell case will be on a motion by the Negro plaintiffs for an order directing the school board to prepare a new desegregation plan. The plaintiffs contend that assignments should be made on the basis of nonracial attendance zones or that the schools should be consolidated or "paired."

The school board said in response that it had begun a study "to determine whether any feasible methods of school assignment are more promising than freedom of choice to accomplish the desegregation of the district." The board said it would file a report by Aug. 1.

The hearing in the Crawfordville case will be on a motion filed by the Justice Department asking that the school board be ordered to adopt an attendance

Taken Before Plane Is Hijacked

SYRACUSE, N.Y. (AP) — A 27-year-old federal program worker is free in his own recognition after his arrest for boarding a Mohawk Airlines plane armed with three guns, two knives, ammunition and two cap pistols.

Hans Klint of Syracuse, who was to begin lecturing next week at an Upward Bound program at Utica College, was arrested by the FBI Tuesday as he boarded a Boston-bound airliner at Hancock Field.

The FBI said Klint carried a case containing a double-barreled shotgun, a 30-caliber rifle with a scope, a gas pellet gun, two knives, the ammunition and the pistols.

The arrests came, a bureau spokesman said, after agents received an anonymous phone call saying that a plane was to be hijacked.

Klint was freed pending a hearing by U.S. Commissioner Edward M. Conan. He was charged with carrying dangerous and deadly weapons aboard a plane, a felony.

A spokesman at Utica College said Klint had been a program coordinator in the federal-funded program last summer and was to have lectured there this year.

zone plan or to consolidate.

The Crawfordville board said in its response that it had begun a study to determine if consolidation was a more acceptable plan than freedom of choice and would implement it in September 1969 if it seems better. The board asked permission to continue with the freedom-of-choice plan for 1968-69.

In the Gould case, the Supreme Court said the school board must formulate a new plan that promises to convert the system promptly to one without a "white" school and a "Negro" school, but "just schools." The court said Gould's freedom-of-choice plan was inadequate.

The board has asked to continue with its freedom-of-choice plan for 1968-69 while it studies alternate methods. The board said it would file a report by Feb. 15 on the alternatives and would be prepared to implement in September 1969 the method of student assignment that seems most feasible.

HOPE (ARK) STAR, Printed by Offset

ROCKEFELLER, (from page one)

lights:

Gov. Tim Babcock of Montana, Nixon's Western regional chairman, said Nixon "has the strength in the key states from coast to coast" to win in November.

A resolution suggested by Rhode Island's John H. Chafee that would lessen the impact of a big November vote for third-party candidate George Wallace, got a cool reception from several governors, including Rockefeller.

Chafee wanted the governors to endorse an agreement between the major parties to guarantee the presidency to the candidate getting the biggest popular vote if there should be no majority winner in the Electoral College. Such an agreement is being pushed by a bipartisan group of congressmen.

Although several governors agreed that the Southerner's strength is growing, most played down fears that Wallace would gain enough votes to throw the election into the House of Representatives.

Wallace himself, campaigning in Iowa, said he didn't think such an agreement would be constitutional. He called it "foolish."

Gov. John B. Connally of Texas stopped short of saying Massachusetts Sen. Edward M. Kennedy lacked the qualifications to be a vice presidential running mate for Humphrey, but indicated he favored a more conservative candidate.

Several governors earlier in the conference suggested Kennedy would add great strength to a Humphrey ticket.

Humphrey, meanwhile, indicated that he was reserving for himself the right to pick a running mate, although he wasn't locking the door to an assist from the convention.

"I would want very much to have something to say about that myself," Humphrey told a New York news conference which was his first formal session with the press since he announced his candidacy.

Humphrey didn't indicate his preference for a running mate, but showed some irritation when asked repeatedly about whether he will talk to Kennedy about the possibility of accepting second place.

The news conference preceded a \$500-a-plate dinner at which Humphrey declared, while hundreds of antiwar demonstrators milled in the streets outside, that the next president will have to re-examine America's national priorities.

Humphrey headquarters in Washington released a letter the vice president wrote July 15 to the Democratic Platform Committee, suggesting seven themes be considered in shaping the 1968 platform.

The themes summed up what Humphrey has been saying in campaign appearances and position papers and included: Peace, at home and abroad; a "Marshall Plan" for the cities; programs to insure full employment; strengthening of the free enterprise system; an "open presidency" with citizen participation at all levels, and full use by society of the benefits of science and technology.

McCarthy, in Baltimore to try

to persuade Maryland delegates to at least remain uncommitted before the convention, criticized Humphrey for saying he was unclear on McCarthy's Vietnam position.

"They must be keeping the vice president in singular isolation in the White House," McCarthy said.

McCarthy also said the Vietnam war appears no closer to settlement than before the Paris peace talks started, despite the Vietnam summit the past week-end in Hawaii.

There were these other political developments Tuesday:

Agreements were reached in both Chicago and Miami Beach, lifting the threat of communications blackouts during the political conventions.

In Chicago, the International Brotherhood of Electrical Workers said it would allow its members, working without pay, to install all necessary facilities in the International Amphitheatre for the Aug. 26 Democratic convention. The union has been on strike since early May in a contract dispute with Illinois Bell Telephone.

In Miami Beach, a spokesman for the Columbia Broadcasting System announced settlement of a dispute that had halted communications work in preparation for the Aug. 5 Republican convention.

The IBEW had thrown up picket lines to support a demand that a new piece of computer equipment be operated by a member. CBS said an IBEW member would operate the equipment under network supervision while the matter goes to arbitration.

Louisiana Democrats selected the state's first racially integrated convention delegation and predicted all 50 members would support Humphrey.

Wallace aides said in Massachusetts they are filing some 70,000 signatures more than needed to put the former Alabama governor on that state's presidential ballot. And in Oklahoma, the State Supreme Court issued an order granting Wallace and his third party candidates a place on that ballot.

Celler Says Gun Control Will Pass

By TOM SEPPY
Associated Press Writer
WASHINGTON (AP)—A leading congressional supporter of gun control legislation predicts the House will approve President Johnson's embattled proposal to restrict the sale of rifles, shotguns and ammunition.

The prediction was made by Judiciary Chairman Emanuel Celler, D-N.Y., after the House spent seven hours Tuesday wading through amendments to ready a measure for today's expected final vote.

Celler's opposite number in the Senate, Judiciary Chairman James O. Eastland, D-Miss., declared his opposition to a similar bill called up for simultaneous action in his committee.

"I hope the committee will kill all the gun bills," Eastland said.

Among the amendments tacked onto the bill Tuesday was one proposed by the National Rifle Association, a prime enemy of stiffer gun laws.

Sponsored by Rep. Robert L. F. Sikes, D-Fla., it would exempt the National Board for Promotion of Rifle Practice from the prohibition of interstate shipment of firearms and ammunition.

The board, a military-civilian governing body, works closely with the NRA in the holding of rifle and pistol matches.

Sikes, a lifetime member of the NRA, said, "We can live with the bill the way it is."

Another amendment, sponsored by Rep. John D. Dingell, D-Mich., also an opponent of gun controls, would permit licensed gun collectors who deal in guns as relics and curios to buy and sell firearms across state lines.

"Under this amendment any self-styled collector could acquire firearms through the mail," argued Celler. He said this was a dangerous loophole.

The House also adopted an amendment that for all practical purposes would leave only ammunition for pistols and revolvers prohibited from sale through the mails.

The House rejected an attempt to require the states to give mandatory prison sen-

Funds for Air Safety Increased

By ROBERT T. GRAY
Associated Press Writer
WASHINGTON (AP)—The Senate has approved an additional \$153 million for the Federal Aviation Administration in a move to relieve the congestion that has disrupted air traffic at some of the nation's busiest airports.

"This is not a matter of air safety, it's a matter of air sur-

tences for persons convicted of a crime while using a firearm in the commission of a federal felony.

Regardless of what form a gun control bill finally takes if and when it emerges from Congress, one thing seems certain at this point: There will be no provisions for the licensing and registration asked by Johnson after he first pressed Congress for a ban on interstate mail-order sales of rifles and shotguns and over-the-counter sales of long guns to residents of nonadjacent states.

Johnson also asked for bans on sales of ammunition and on sales of all guns to people under 18.

The bill was \$153 million higher than a measure passed previously by the House and its sponsors said the extra money would provide for the hiring of 3,627 air-traffic controllers. The House bill allowed for only 1,631 controllers.

The Senate approved the additional money, part of an over-all \$1.78 billion appropriations bill for the Transportation Department, 82 to 2. Only Sen. John J. Williams, R-Del., and Strom Thurmond, R-S.C., dissented.

An informed Senate source said he expects the House will agree to much, if not all, the increases in the Senate bill.

Quick action in the House will

vival," Sen. John C. Stennis, D-Miss., said before the Senate approved appropriations of \$983.4 million for the FAA.

The action came while reports of delays in takeoffs and landings at major airports throughout the country continued to come in.

The traffic jams, which have mushroomed in recent weeks, are threatening to cause the cancellation of some flights, a cutback in FAA services and the possible closing of some facilities.

The controllers maintain that they are overworked, short-staffed and under-equipped to handle the increasing air traffic.

The bill was \$153 million higher than a measure passed previously by the House and its sponsors said the extra money would provide for the hiring of 3,627 air-traffic controllers. The House bill allowed for only 1,631 controllers.

An informed Senate source said he expects the House will agree to much, if not all, the increases in the Senate bill.

Quick action in the House will

be necessary if the measure is to go into effect before fall since Congress takes a break for much of August due to the national political conventions.

In a related development, FAA officials met Tuesday with leaders of the Professional Air Traffic Controllers Organization, a new union, to discuss the air deus.

F. Lee Bailey, executive director of the union, said after the session his organization would seek meetings with industry and other interested parties this week to talk over immediate steps to end the problem.

4th Party File Refused by Bryant

LITTLE ROCK (AP)—Secretary of State Kelly Bryant Tuesday refused to place the Universal party on the Arkansas general election ballot.

"This office has not been aware of any activity of the Universal party within the state," Bryant told John W. Topkins of Berkeley, Calif., chairman of the party's national committee.

Bryant said all he had received from Hopkins was a letter saying that electors for the party's presidential candidate,

Kirby James Hensley, and vice presidential candidate, Roscoe B. MacKenna, had been elected July 17 at Malvern, where the party held its state convention.

Armed Man Seized at Conference

CINCINNATI, Ohio (AP)—A Cincinnati, arrested with a loaded 22-caliber pistol in his possession in the hotel headquarters of the National Governors' Conference, was released on \$1,000 bond Tuesday night.

Thomas Andrew McKeown, 20, was arrested Tuesday afternoon in the Sheraton-Gibson lobby when a security guard of Gov. Lester Maddox of Georgia discovered he was carrying the six-shot pistol.

McKeown was charged with carrying a concealed weapon. He reportedly is an avid fan of Maddox, who appeared unperturbed about the incident.

McKeown was taken into custody inside the lobby door as Maddox was entering the hotel. Maddox' chief security aide, Capt. Steve Polk, a Georgia patrolman, said he "brushed down" McKeown after he had seen the man following Maddox from the convention center to the hotel, a distance of three blocks.

Maddox said he didn't know about the incident until Polk told him. "It was just one of those things that happens occasionally," the governor said.

Maddox, who later called a news conference to speak out against federal gun control measures, said "I've been advised this man intended no harm."

Police said McKeown also had a pair of handcuffs and a phony private watchman's badge. Under questioning, police said McKeown told them he was carrying the gun because he was "afraid of crowds and Negroes."

Police also reported he said he was "fond of Gov. Maddox." At the convention center, Polk said McKeown got Maddox's autograph.

McKeown lives with his grandmother, Mrs. Consuela Schwellitzer, who said he had recently been treated at a mental hospital here. McKeown told police he had been an outpatient.

Polk said the gun was in a holster under McKeown's suit.

Kirby James Hensley, and vice presidential candidate, Roscoe B. MacKenna, had been elected July 17 at Malvern, where the party held its state convention.

coat. After discovering the weapon, Polk eased McKeown over to the police desk in the lobby.

At his news conference, Maddox said he opposed registration of guns because "people would still be able to get guns regardless of any law." He said gun laws would be unconstitutional and "not in the best interest of this country."

Chlorine Gas Routs Folks From City

SOUTH CHARLESTON, W.Va. (AP)—A great gray cloud hung over this chemical-making center today as thousands cautiously returned to the homes they evacuated because of a deadly chlorine gas leak.

A series of small explosions Tuesday, ripped through the big FMC plant, rupturing a tank filled with the chlorine gas and sending a cloud of gas fumes over a 12-block area in the city of 20,000. Unofficial estimates of the number of evacuees ranged from 500 to 5,000.

Police sealed off the city from Charleston, the state capital across the Kanawha River. Residents sought higher ground to escape the fumes which produced smarting eyes, coughing and vomiting. Dozens were treated at Thomas Memorial Hospital, with some requiring oxygen tents, but none was considered serious.

Fire swept through a complex of buildings at the chemical plant, located on U.S. 60, which cuts through the heart of the city that calls itself "the chemical center of the world." Union Carbide and other chemical producers have installations here and employ thousands.

Police also reported he said he was "fond of Gov. Maddox." At the convention center, Polk said McKeown got Maddox's autograph.

McKeown lives with his grandmother, Mrs. Consuela Schwellitzer, who said he had recently been treated at a mental hospital here. McKeown told police he had been an outpatient.

Polk said the gun was in a holster under McKeown's suit.

Foreign Aid Again Feels Economy Axe

WASHINGTON (AP)—President Johnson's foreign aid program, a continuing target of an economy-minded Congress, has suffered another setback.

The Senate Foreign Relations Committee Tuesday refused to restore the nearly \$1 billion cut by the House last week from the President's original \$2.9 billion request. In fact, the committee trimmed another \$22.9 million on its own.

Observers said by the time the overseas proposals get through being worked over in today's committee hearings, future debate on the Senate floor, and certain reduction in separate appropriations bills the program might barely total half of what was asked.

The foreign assistance program has been in increasing difficulties since a year ago when Congress first demanded multi-billion-dollar spending cuts in return for passage of the President's 10 per cent income tax surcharge.

Rep. George Mahon, D-Tex., chairman of the House Appropriations Committee, has predicted the money bill may be \$400 million under the authorization an ultimate appropriation of less than \$1.6 billion.

The authorization measure sets policy and money ceilings. The appropriations bill fixes the amount that may actually be spent.

A combination of factors has sent the aid program to its lowest level in its 21-year history. It has its longtime critics who have termed it a give away that made no friends for this country.

They have been joined in recent years by former supporters who now oppose the program to register opposition to the Vietnam war and its costs. The bill contains substantial amounts for the civilian economy of Vietnam, but the major war costs are in the Defense Department budget.

Police also reported he said he was "fond of Gov. Maddox." At the convention center, Polk said McKeown got Maddox's autograph.

McKeown lives with his grandmother, Mrs. Consuela Schwellitzer, who said he had recently been treated at a mental hospital here. McKeown told police he had been an outpatient.

Polk said the gun was in a holster under McKeown's suit.

PIGEONS, who consider statues for the birds, steal a drink from a renaissance wolf fountain at Siena, Italy. One seems to be acting as lookout for the other.

4th Night of Rioting on East Side

NEW YORK (AP)—Police reinforcements were called to the Lower East Side Tuesday night for the fourth consecutive night after a residents' parade against use of Tactical Patrol Force units in their neighbors' hood broke up into a bottle-throwing attack on police.

Some 250 members of the TPF, which is specially trained in riot and crowd control, cleared the streets adjoining Avenue C and Sixth Street at 10 p.m. After several hours of relative quiet, another bottle-throwing spree led plainclothes detectives to sweep along Sixth Street telling people to get inside the tenements in the predominantly Puerto Rican area.

At one point, plainclothesmen entered a tenement with guns drawn and arrested six persons, including one woman. They were charged with disorderly conduct.

Seven other arrests were made, including two for burglary at a local supermarket. No injuries were reported.

Earlier, two policemen were struck by thrown bottles in the Coney Island section of Brooklyn.

MORE FACTS:

About Talbot Feild, Jr. And His Record As Our State Representative —

Talbot Feild, Jr. was born and reared in Hempstead County, graduated from Hope High School and the University of Arkansas Law School and is a member of St. Mark's Episcopal Church in Hope.

He is now serving as Secretary-Treasurer of the Southwest Arkansas Bar Association. He was elected to this office by his fellow lawyers in this area. He is a member of the American Legion and the Veterans of Foreign Wars and is now serving as Adjutant of the Hope American Legion Post, Judge Advocate of the Hope VFW Post and Judge Advocate of the American Legion, Department of Arkansas. He is a member of the Board of Directors of Pioneer Washington Restoration and has served continuously as secretary of that organization. We mention these things because they are positions of honor and trust bestowed on our Representative by his fellow citizens and we think that you, the voters of Hempstead County, because of your continued support of Talbot, share and can take pride in, his record.

Talbot Feild, Jr., in his capacity as Chairman of the Arkansas Legislative Council, will preside over the budget hearings in which the Governor, all Department heads and the members of the Commissions and Agencies of our State Government will submit for approval to be recommended to the next General Assembly, budgets in excess of one-half billion dollars for the operation of our State government for the next fiscal year. In his capacity as Chairman of the Legislative Council he will participate in the approval and allocation of these budgets. He is the leading candidate for election to the position of Speaker of the House of Representatives, a post in political prestige and power, third only to the Governor of the State. Friends of Hempstead County, this will be our Representative!! Does this representation not reflect the highest honor and credit to the citizens of this County? We think it does and we invite your sober appraisal of any alternative which is being offered to you.

Now, the question has been asked, What has Talbot Feild, Jr., done for Hempstead County? This is a fair question and you are entitled to a straight answer. For the first few years of his service as our Representative, it is true, about all Talbot could do was listen and vote. To be truthful, that is all any Representative can do for the first few years of his service. However, through continued and diligent service Talbot Feild, Jr., has been instrumental in obtaining many benefits for Hempstead County. We invite your attention to a few of these.

Talbot Feild, Jr., worked hard and was very much responsible for securing the Headquarters and Coliseum for the Third District Livestock Show for Hope and Hempstead County.

Talbot Feild, Jr., worked hard and was very instrumental in getting Bois D'Arc lake and game refuge built by the Arkansas Game and Fish Commission.

Talbot Feild, Jr., as a member of the Red River Valley Association, worked hard and attended many meetings, from Shreveport, La., to Washington, D. C., to obtain for this area Millwood Reservoir.

Talbot Feild, Jr., is credited, more than any other man, with obtaining for Hope and Hempstead County the Red River Vocational Technical Training School now employing seventeen people and training over one hundred thirty students.

Talbot Feild, Jr., in the last session of the Arkansas Legislature, introduced 22 Bills and Resolutions. Two of these, HB No. 88 and HB No. 89, by way of example, became law and directly benefited Hope and every other city in Arkansas by making it much easier to improve and pave streets and gutters. This was done by changing the old, complicated and cumbersome provisions of the law relating to street improvement districts.

Now voters of Hempstead County, we have, in this and a previous statement, presented to you certain facts about Talbot Feild, Jr., and his record as your elected Representative for the past twenty years. We have done this at some expense to ourselves in money and time, because, as we stated at the outset, we feel this race for Representative has very special significance for all of us. We have no "axe to grind". We are not "special interests", except in the sense that we are especially interested in the special interests of Hempstead County. We invite your serious and considered judgement of the candidacy of Talbot Feild, Jr., and of the alternatives being offered and we feel very confident that judgement will result in the resounding re-election of Talbot Feild, Jr., as our State Representative.
